President's Report

THE HOSPITAL suffered great loss in the resignation of Charles P. Curtis, its President from April 15, 1915, to January 9, 1936. He gave liberally of his time and money in making the hospital of high standing and reputation throughout the country.

We were fortunate in having Dr. James E. Paullin as Physician-in-Chief *pro tempore* from February 23 to 29, 1936, and Lord Horder, first Baron of Ashford in a similar capacity May 1 and 2, 1936. The Surgeon-in-Chief *pro tempore* was Dr. Knut Giertz who served from May 16 to May 31, 1936.

During the year, we lost Dr. Reginald Fitz, who went to the Evans Memorial Hospital as Director and Wade Professor of Medicine at Boston University. Doctor Fitz still continues on our staff as Consulting Physician. Dr. David Cheever was granted leave of absence until June, 1937, on account of sickness; also Dr. John Homans was granted a similar leave, being called to Yale as Professor of Surgery. Their work has been carried on by some of our other surgeons and associates in surgery.

The Ladies' Social Service Committee has been of continued help to the hospital, also the ladies on the Nurses' Advisory Committee, who have been most constant in their attendance and helpful in their advice.

The hospital is still absolutely dependent on the Community Federation for its existence, and in spite of their assistance, has had to spend from its capital to keep the hospital running. We were unfortunate

PETER BENT BRIGHAM HOSPITAL

in having had at one time sufficient funds and our trustees and doctors have not been alert in getting people sufficiently interested in the hospital to leave it money when they died or give it money while alive. Many hospitals have continued to grow stronger through the above sources while our loss is real.

We have had several generous donations for special purposes, but these sums have to be spent on special purposes, and while helping the efficiency of the hospital, do not help the finances.

We want to thank the staff and employees for their assistance in the economies that we tried to introduce and to urge them always to be looking for possible economies in order to insure our continued existence.

WILLIAM AMORY,
President.

DECEMBER 31, 1936.

EDMUND D. CODMAN,
Treasurer.

Report of the Superintendent

THIS is the twenty-third report of the Superintendent, covering the year 1936.

There were admitted to the wards 4,712 patients as compared with 4,422 last year. The number of days' care was 68,437, an increase of 329 days over the previous year. The average bed occupancy was 75%. The average stay per patient was 15— days as compared with 15+ last year. The percentage of paying patients was 57— as compared with 54— a year ago, and of free patients was 43+ % as compared with 46+ % in 1935. The per capita cost based on total expenditures in all departments (except the amount paid graduate nurses employed at the expense of patients for special duty) was \$7.40— a day as compared with \$7.10— last year. Deducting the cost of operating the private ward and our-door department, the per capita cost was \$6.40— as compared with \$6.05+ in 1935. The daily per capita cost for provisions for all persons fed averaged \$.41+, an increase of \$.02 per day over last year.

The total operating expenses for the year were \$541,003.14, and receipts from patients were \$319,992.77. The difference, \$221,010.37, represents the amount of free service to the indigent sick of Suffolk County.

Again we wish to express our sincere appreciation to the Community Federation of Boston for its assistance towards meeting our deficit. Without it, we could not continue our work with the high standards of service which we have tried to maintain for our patients. We realize that the cost of running the campaign is held to a minimum by the large amount of efficient volunteer

PETER BENT BRIGHAM HOSPITAL

service which so many have given to make it a success, and we would like to record our appreciation and thanks to those volunteers for their valuable service. Notwithstanding the fact that the hospital has been unable to restore cuts in rates of pay made in 1932, 100% of our employees voluntarily contributed towards the Community Fund. I wish to record herewith my appreciation of their generous response. No more sincere expression of their belief in our needs could be given.

The Peter Bent Brigham Hospital was founded for the care of the indigent sick of Suffolk County and no patient residing in the county has ever been refused admission because of inability to pay.

In the Out-Door Department, the number of new patients treated was 6,756. Last year, it was 7,461. The total number of visits was 76,149 as compared with 77,728 in 1935. Our aim has always been to render as high quality of service as possible rather than to treat as best we can all who apply for admission to the department. With the exception of a few stormy days, all of the doctors at our command in this department have continuously cared for a full day's schedule of appointments. Seven hundred and forty-seven patients were rejected, 394 because all appointment time was filled; 188 because applying for treatment for which we had no suitable clinics, such as eye, ear, dermatological, etc.; 45 because they refused to get a reference letter from their local doctor; 49 could not wait for an appointment; 62 were too late for appointments which they had made; 9 were financially ineligible. The per capita cost per visit was \$.68— as compared with \$.58— last year. The increased cost is largely apparent rather than real and is due to a uniform system of accounting which we with other hospitals are now keeping at the request of

REPORT OF THE SUPERINTENDENT

the Community Federation. More complete detail will be found by reference to Table II, Comparative Statistics, and Table IV, which gives a complete analysis of expense and revenue.

Under the Federal Social Security Act, the Massachusetts Department of Public Health has secured funds to furnish the following hospitals in this city with money for use in better follow-up work in the control of cases of syphilis and gonorrhea:—Boston City Hospital, Peter Bent Brigham Hospital, Massachusetts General Hospital, Boston Dispensary, Beth Israel Hospital, and Children's Hospital. For this work, five trained graduate nurses have been appointed. They work by districts rather than for individual clinics, so that all five nurses work in common for the six hospitals. The technical supervision of workers is maintained by the Division of Genito-Infec-tious Diseases of the State Department of Health. These workers began on July 1, 1936.

We have continued all of the economies which from time to time have been instituted to cut the operating expense. Nevertheless, owing to the increased cost of commodities, it has been impossible to hold expenses down to last year's figures. Some method of replacing our depleted capital seems imperative.

On January 9, 1936, Mr. Charles P. Curtis resigned as President of the Corporation, a position which he has held since April 15, 1915. He also resigned as a member of the Corporation on January 23, 1936. I cannot adequately express in words my appreciation of the loyal service Mr. Curtis gave the hospital during the many years he was a member of the Corporation. As the hospital executive serving under him since 1919, I consider it a privilege to have had this official relationship and I cherish equally the friendship which developed at the

same time. Through his resignation, the hospital has lost the services of a wise and devoted trustee.

On September 1, 1936, Dr. Reginald Fitz, who had been with us since 1922, resigned to become Wade Professor of Medicine at Boston University School of Medicine. He has our best wishes for success in his broader field.

We wish also to record the loss of Miss Mary C. Gilmore, our Assistant Superintendent of Nurses. A Brigham graduate, she served in many capacities in the School of Nursing, and always with great efficiency. She left to become Principal of the School of Nursing of the Beth Israel Hospital, Boston. Our best wishes for her success go with her.

In the Dietary Department, there were no changes in personnel. Miss Gertrude McDonald and her assistants, Miss Margaret O'Neil, and Miss Evelyn Nichols, have carried a heavier load than in the previous year, and most efficiently. The total diet days for the year was 14,033 in comparison with 12,139 last year. The outstanding diets were Diabetic, 24,011; High Caloric-High Vitamin, 3,925; Obesity, 1,927. Cafeteria service for doctors and nurses has been successfully continued throughout the year. We shall look forward to the time when waitress service for dinner at night can be re-established. Six student dietitians have completed the ten month course during the year, and all of these have been placed in satisfactory positions.

We have completed the modernizing of all of the utility rooms throughout the hospital through the installation of stainless steel work tables and complete modern sterilizing equipment, both for utensils and instruments. Modern sterilizers have been placed in all diet kitchens for sterilizing dishes of all patients on precautions. This

REPORT OF THE SUPERINTENDENT

work has been possible through generous contributions from three of our trustees.

We wish to record an anonymous gift from a member of the Corporation of \$1,000 for the completion of improvements in sterilizers and other equipment in our utility rooms mentioned above and for new furniture in the private ward. We also wish to record our thanks for a generous gift of money from the Godfrey M. Hyams Trust which enabled us to replace our 200,000-volt x-ray treatment apparatus with new and more efficient equipment. The Ladies' Social Service Committee has worked hard to raise funds for that department. The Christmas Committee again gave much pleasure to the patients and staff in arranging the Christmas program. To both committees, we give our sincere thanks. We wish to express our continued gratitude to St. Paul's Industrial Society for the large amount of sewing they have done for us. The Gray Lady Service of the American Red Cross has continued in charge of our Patients' Library. During the year, they distributed to the wards 3,005 volumes and to the personnel of the hospital several hundred additional books; 1,880 magazines were distributed, the total pieces of reading matter being circulated amounting to 5,136 for the year. The list of donors of books to the hospital is too large to record here in full. In particular, we wish to thank Dr. Elliott C. Cutler for his contribution of 45 books; Dr. James P. O'Hare, 11 books; Mrs. Larz Anderson, 30 books; Miss Elaine Boutwell, 12 books; Harris Lending Library, 10 books; Miss Dorothy Winship, 9 books; Miss Eleanor Chase, 10 books. A total of sixteen volunteers in the Gray Lady Service gave 1,565 hours to the Library under the efficient direction of Miss Clara Mead who for several years has had charge of this service.

PETER BENT BRIGHAM HOSPITAL

To all of the employees of the hospital for their continued efficient co-operation under trying conditions, I wish to express my deep appreciation, and I wish to again thank the members of the Corporation for their support.

JOSEPH B. HOWLAND,
Superintendent.

* Deficit.

Report of the Roentgenologist

LAST YEAR'S report ended as follows: "In closing may we hope that next year's report will start out with the news that the much-desired new therapy machine has finally been acquired." It gives us great pleasure to report that the fervid hope expressed above has been fulfilled. A grant of money was obtained from the Godfrey M. Hyams Trust which made possible the purchase of a modern and efficient deep therapy unit in April 1936 and both the department of Roentgenology and the Hospital are deeply appreciative of the confidence and the support given us by the trustees of the Godfrey M. Hyams Trust. The unit which was installed is the Westinghouse Quadrocondex with the new shockproof tube-stand which eliminates all danger of high voltage shock to the patient. These units are more efficient than the older type in many ways, for example, the same *quantity* of X-radiation can be given in less than a third of the time previously used and the *quality* of the beam of X-rays used is considerably improved by using a heavier filter and a greater target-skin distance. This latter factor of changed quality allows us to give a larger dose without increasing the damage to the skin and at the same time permits a greater percentage of the surface dose to reach the tumor. The saving in time has allowed us to treat a larger number of patients and leaves a comfortable margin of free time for future increase. This in turn allows the nurse in charge of therapy to help during the late morning rush hour which is so common in all X-ray departments.

Of greater humanitarian importance and interest is the effect of the new therapy system upon the welfare

of the patient. There is no doubt but that the patients are more comfortable during the treatments than before. If the patient is in bed, the treatments can be given without moving him or her from the bed,—a decided advantage with patients who are very ill, or when moving a patient is difficult or painful. Similarly the advantage of flexibility in the new tube-stand is very much appreciated by the patients who had to be “fitted” to the old fixed-portal machine, as they can now lie in a comfortable position and have the tube fitted to them.

The third factor, accuracy, is considerably improved by many features inherent in the newer machines, chief among them being the constantly-reading ionization chamber directly under the tube which measures the output of the tube during the entire treatment, whereas we formerly measured only what we put into the tube in the way of voltage and current, hoping that the output would remain stable. All of these improvements are not special to this one machine, but are common to all of the best of the new therapy machines, and are reported here simply to show the improvement in technique, in adaptability, in accuracy, all tending to promote better service and, we hope, better end results. It will take three to five years before we can determine the improvement in results, as we deal mostly with insidious and, on the whole, unsatisfactory conditions in the majority of our therapy patients. It was surprising, however, to learn from a statistical survey of all of the patients treated during 1936 (made by Dr. C. B. Kimmel) that forty-one percent were treated for benign conditions! In view of the increasing use of X-ray therapy we thought it would not be amiss to include in this report an analysis of a year’s work in therapy, chiefly

REPORT OF THE ROENTGENOLOGIST

as to the problems we are dealing with and the types of cases which are submitted to us for treatment.

During the year 1936 there were 2,826 X-ray treatments given to 355 patients, which averages 8 treatments to each patient. Many received only one treatment, others received from 20 to 40 treatments, the maximum being 50 to one patient. Those patients with benign lesions naturally received fewer individual treatments than the ones with malignant lesions, particularly those with deep-seated lesions, where the attempt is made to saturate the tumor with X-rays given through several skin portals, "cross-firing" as it is called through as many as six portals.

BENIGN CONDITIONS TREATED

Warts	35
Skin, miscellaneous	32
Ovaries, sterilization	20
Skin infections	18
Tuberculous adenitis	11
Pituitary, menopausal syndrome	11
Miscellaneous	19
<hr/>	
Total	146

Of greatest numerical importance in this group are the benign skin lesions, warts, plantar warts, infections (boils, carbuncles, acne and some fungus infections) and other less common diseases. The results on the whole have been prompt and satisfactory, and it is evident that the number of cases in this group is increasing as it is elsewhere. The use of the X-ray in the treatment of certain infections is not based upon theoretical considerations but upon actual practice and the current literature affords ample proof of its value. Plantar warts are by no means dangerous to life or health or even well

being but they are often quite uncomfortable and are not very successfully treated by cautery or by excision. Many of our patients in this group come from the ranks of the students, nurses and attendants. It is interesting to note that with the new machine the dose in "r" units had to be doubled to get a uniformly satisfactory effect. This is due to the filter of oil and bakelite under the tube, changing the quality of the emergent rays.

The second and only other important sub-group of benign conditions were the cases in which sterilizing doses were given to the ovaries for various reasons and a still smaller group in which irradiation was directed at the pituitary gland in patients with severe intractable menopausal symptoms. Over half of these received prompt and definite benefit. (Analysis of this group of patients is being made and reported by Dr. Zollinger.)

MALIGNANT CONDITIONS TREATED

Lymphoma (22), leukemia (18)	40
Epitheliomas and carcinomas, skin	33
Carcinoma, cervix (16), ovary (9), fundus (6)..	31
Carcinoma, breast	26
Brain tumors	21
Carcinoma, prostate; bladder; kidney	20
Carcinoma, gastro-intestinal	12
Carcinoma, lung	10
Miscellaneous	16
Total	209

The most important numerically in this group is the lymphoma and leukemia class. There were 40 patients in this group who received X-ray treatments in 1936, the great majority of them with marked benefit. However, that benefit is usually of but a few years duration and nearly all of these patients die of their disease in four

REPORT OF THE ROENTGENOLOGIST

to five years. We have a few who have gone 8 to 10 years, in good health and leading normal lives most of the time. It seems a paradox that a disease which responds so quickly and so well to X-ray therapy cannot be cured by this medium.

The next largest class is the epithelioma and basal cell carcinomas, most of them on the face. Here we have a definite chance to cure, and by judicious treatment we can effect a high percentage of cures, particularly if the lesions are small. If the carcinoma has invaded bone, cartilage or glands, a cure is practically impossible by irradiation alone.

The third largest group, carcinoma of the uterus and ovary, is rapidly coming under control and in most large clinics is no longer treated by surgery but by irradiation with increasing percentages of five year cures as we gain in experience. All too often, however, the carcinoma has spread beyond control before the patient presents herself for treatment, and once such a carcinoma is out of the pelvis the chances of a cure are gone.

Carcinomas of the breast are irradiated without operation only in the advanced cases or in those who refuse operation and in nearly all of these the attempt is not made to cure an incurable disease, but merely to alleviate and palliate. In general the decision in all cases must be made when the patient is first seen as to whether we shall attempt a cure or merely try for alleviation of symptoms. All too often patients are put through a rigorous course of treatments at considerable expense and often with considerable discomfort when there is no reasonable chance of a cure. This seems unfair and unjust to us, to make a patient who is already suffering from an incurable disease suffer still more from treatment, and

for that reason many of our treatments are frankly palliative from the outset.

The same holds true not only of carcinoma of the breast, but also in carcinoma of the bladder, prostate and kidney, the next largest group. The response in the carcinomas of the bladder seems definitely better and more hopeful than in carcinoma of the prostate or kidney. However, some of the prostatic carcinomas with diffuse bone metastases respond quite well symptomatically to irradiation, with considerable relief of pain, and an occasional case of carcinoma of the kidney may be made more favorable for operation by heavy pre-operative radiation.

Out of the 22 brain tumors irradiated this year there were 10 pituitary adenomas, the most hopeful group for long-continued symptomatic relief. These are being considered in detail in separate reports which will be published in the *Journal of Roentgenology*. The other brain tumors receiving irradiation were mostly gliomas with but temporary alleviation of symptoms except in the medullo-blastomas where more intensive and more accurate X-ray therapy of the type possible with our new machine offers reasonable hope of cure, even without radical surgery. There were two benign tumors, angiomas, and two carcinomas of the nasopharynx in this group, one of the latter having given unexpectedly good symptomatic and objective response to the irradiation. They are included because their first and major symptoms were those of intracranial extension.

Practically hopeless are the carcinomas of the lung and of the gastro-intestinal tract, the best results being only a temporary remission of symptoms following fairly heavy irradiation. There are scattered cases among the remainder of this group which have given very good

REPORT OF THE ROENTGENOLOGIST

results but space does not permit and the scope of this report does not include extensive details.

The general work of the department has broken all records in the number of patient-visits, with a total of 12,831 for the year, including the 2,826 treatments noted above. The increase came equally from the wards and from the Out-Door-Department, and from both medical and surgical divisions. Of special interest was the increase in the number of private patients, who form the income-producing nucleus to offset the loss in revenue from the large number of free patients. Private patients increased from 1,200 in 1935 to 1,700 in 1936, and this increase probably accounts for the favorable balance of income over expenditures shown for the year, more than any year since 1929. Detailed and comparative figures in five-year periods can be found at the end of this report.

Another item of interest to our graduates is the completion of the photographic gallery of all former Roentgenologists and house officers, which adds considerably to the attractiveness of the office and which stimulates the present generation of incumbents to emulate or to excell their predecessors. Of practical value, too, it forms a constantly-available roster when good positions (formerly called "jobs") come seeking a desirable man!

Along with the sartorial display (which should be of interest to our friends and graduates at the *anniversarium vigesiman quintum* in 1938) the development of a radiological library for our house-officers and students has been emphasized. Using the income from post-graduate students we have added to the books and journals until our collection exceeds that in the Medical School Library, and it now contains not only complete files of the three most important radiological journals,

PETER BENT BRIGHAM HOSPITAL

but also most of the text books and monographs dealing directly or indirectly with roentgenology. Several members of the staff have contributed books, either of their own labors, or of interest in their own fields and these are gratefully acknowledged.

As to the endowment fund hopefully mentioned in our last report, very little can be said. It has accumulated very slowly but each small increment has helped toward the goal of \$50,000. Several excellent prospects have faded out of the picture leaving nothing but goodwill and hope to the fund, but the opportunity and the need are still there.

Our major need at present is for adequate fluoroscopic equipment, especially a tilting table and an attached serialographic device, to improve and to facilitate the gastro-intestinal work and the difficult work with lipoidal injections into the lungs and into the spinal canal. Our present equipment is seriously out-dated and handicaps us considerably in the ease and accuracy of our work as well as being uncomfortable and inconvenient for the patients. But we carry on cheerfully hoping that another generous gift may be forthcoming to help us with our most difficult work.

The three-year service in Roentgenology was approved by the Trustees last year and was instituted this year, so that there are three men on duty in increasingly responsible positions. Dr. William Myhre has been moved up to the position of assistant resident in place of Dr. Walter Vaughan, who completed his two-year service June 30, immediately entering the large department of radiology at Duke University Hospital as assistant to Dr. Reeves. Dr. John Larkin, a graduate of Johns Hopkins Medical School, was awarded the position as House-officer, and Dr. Charles Kimmel has been given the junior

REPORT OF THE ROENTGENOLOGIST

position for one year, following completion of his service under Dr. Christian at this Hospital. The Trustees, upon recommendation of the Executive Committee, generously voted to pay the senior assistant resident in X-ray an honorarium of \$750 per year, and continued the salary of \$500 a year for the junior. We hope eventually to have a small salary for the first-year man in the department, as is customary in most teaching hospitals.

There have been only two changes in the staff, Mr. Bruya having resigned in August to open a school of X-ray technique. His position was filled by promoting Jack Henegan, who received his training in this department. Dorothy Brogan, file clerk, left us early in the year and has been replaced by Ruth McWilliams. The whole staff has again demonstrated their loyalty and their cooperation many times during the year, an attitude which partly compensates for many of the things which are still lacking.

In summary may we report a continued growth in our services to the hospital and to our patients, a successful year financially, a much needed addition to our therapy department through the kindness of the Trustees of the Hyams Trust, and a continuance of the cooperation with and from the other departments of the Hospital and the other members of the staff.

MERRILL C. SOSMAN, M.D.,
Roentgenologist.

DECEMBER 31, 1936.

TABULATION OF DATA, FIVE-YEAR PERIODS

YEAR	Ward Cases	O. D. D. Cases	Private	All Others	Totals	X-ray Treatments	Films Taken	Dental Films

Report of the School of Nursing

THE YEAR ends with the following staff of graduate and student nurses:

Superintendent of Nurses and Principal, School of Nursing	1
Assistant Superintendent of Nurses	1
Instructors	2
Instructor on leave of absence	1
Supervisors	4
Night Supervisors	2
Graduate Head Nurses and Assistants in Departments	16
Graduate Nurse Anesthetists	3
Graduate Nurses—X-ray Department.....	3
Graduate Nurse—Out-Door Department—in employ of State Department of Health	1
Graduate Floor Duty Nurses	5
Student Nurses	127
	<hr/>
	166

Forty-one students entered. Thirty-five have been graduated. Eight have withdrawn.

The Children's Hospital has maintained its affiliation, with fifteen students for six month periods.

The last group of students in the old five-year program with Simmons College, eight in number, was received in September, 1935, and will complete their work here in September, 1937.

The twenty-second annual graduation exercises were held November 20 in the Assembly Hall at Simmons College. Mr. Amory, President of the Corporation, presided and announced the graduates, of whom there were thirty-two. The Dr. John P. Reynolds gold medal for general efficiency was awarded to Elva Mae Dawson, and

REPORT OF THE SCHOOL OF NURSING

the John P. Reynolds scholarship for highest rank at the end of the second year was earned by Eleanor McCarthy, a student in the five-year combined course with Simmons College. Dr. Bancroft Beatley, President of Simmons College, gave an interesting and inspiring address. A competitive paper on "What Graduation Means to the Nurse" was read by Ruth E. Pearson, a member of the graduating class.

During the year, the curriculum has been revised, in part. By a careful rearrangement of courses, and with some combinations with the School of Nursing of the Children's Hospital, and a consequent sharing of costs, it has been arranged to give every course twice in the year. By so doing, it is hoped to avoid the difficulty of bringing back students on affiliation for lecture work, and to make it much easier for students who lose work through illness, to complete it. Affiliated students will participate in the class work with our own students, and this will make it unnecessary to do separate teaching for these groups.

A plan has been adopted for the psychological and aptitude testing of candidates as an aid in determining their fitness for the profession of nursing. It is hoped that this method will provide for more careful selection of students and fewer losses in numbers.

There have been a number of important changes in personnel. In September, Helen Newhall, who had been with us for eleven years, and who had been surgical supervisor for eight years, left to become Superintendent of Nurses at the United Hospital in Port Chester, New York. She had given long, faithful and loyal service to the institution. She was succeeded by Helen Aikens, 1930, who has been both night supervisor and head nurse, and has carried on these duties successfully.

PETER BENT BRIGHAM HOSPITAL

In November, Mary C. Gilmore resigned to become Superintendent of Nurses at our neighboring hospital, the Beth Israel. Miss Gilmore was, for over thirteen consecutive years, in the service of the Hospital and School of Nursing; two years as night supervisor, three years as surgical supervisor, and more than eight years as Assistant Superintendent of Nurses. She was a competent assistant, a loyal officer of the Hospital and School of Nursing, a tower of strength, both to the students in the School and to the graduate nurses who have been associated with her, as well as to myself. She was succeeded by Nell Hostetler, of the class of 1920, who brought fine experience to bear upon the problems of the position.

There have been changes, also, in the head nurse staff. One nurse left to take a course in X-ray technique, one on account of illness, one on account of illness in her family, and one to be married. These vacancies have brought back to us one of our older graduates, class of 1930, with several years of excellent experience, and opened opportunities for three of our younger graduates to demonstrate their administrative and teaching ability. Miss Poskitt has joined the staff in the X-ray Department, replacing Miss Williams. The night supervisor and assistant have been changed, the former assistant becoming supervisor, and a new assistant added. A third anesthetist is now on duty. Two nurses from other Schools have served on our medical wards to make up deficiencies in their under-graduate preparation, in order to fit themselves to take New York State Board examinations. One nurse has observed for a month in our operating rooms, to improve her preparation as an operating room supervisor.

One graduate, Miss Hampton, 1931, is attached to our Out-Door Department, doing follow-up work in the

REPORT OF THE SCHOOL OF NURSING

homes of syphilitic cases, in connection with the State Health Department, and under the terms of the Federal Social Security Act.

Five members of the staff had leaves of absence last summer to take courses at Simmons College, and at Teachers College, Columbia University, New York. Miss Sinclair, Instructor in Nursing Practice, is now on leave of absence doing a year of work at the last named institution.

CARRIE M. HALL,
*Superintendent of Nurses and
Principal, School of Nursing.*

DECEMBER 31, 1936.

Report of the Social Service Department

THE SOCIAL SERVICE DEPARTMENT, Peter Bent Brigham Hospital, now reports its service statistics monthly using uniform report forms approved by the Committee on Statistics of the American Association of Medical-Social Workers. The types of service are classified on four levels of treatment. In Group I are included those cases accepted for full study and treatment. Group II contains cases for whom an adequate but less comprehensive form of treatment is undertaken, either because the medical-social problem is simpler or because only a part of the whole problem is selected for treatment. In Group III are classified cases requiring medical-social inquiry followed by brief or isolated services. Group IV includes cases involving social examination or social inquiry, resulting in no evidence of need of social treatment. The total number is 1,636. This does not include the many patients in various clinics, possibly around 3,000, for whom some small service or follow-up is done.

STATISTICAL FIGURES FOR YEAR—1936

Group I:

a. Carried over from preceding year.....	13
b. Taken under treatment during year.....	43
(1) New in Social Service during year....	23
(2) Previously served within this year....	20
c. Total under treatment during year.....	56

Group IV:

a. Social study terminated monthly during year..	143
(1) Social inquiry	142
b. New in Social Service during year.....	142

Report of Work on Surgical Service

There were 288 new cases referred from the surgical service. Seventy-six of these were referred for nursing and convalescent care. Nursing care for convalescing patients or patients with chronic disease is a serious problem for surgical patients. Since resources, other than public institutions are limited, it is very difficult to help these patients make plans for their care which are equally satisfactory to them and the doctor. Most hospitals giving care to chronic patients have long waiting lists for free beds, and the majority of ward patients are unable to pay for an extended period in either a hospital or a private nursing home. Some few patients can pay, some are willing to go to public institutions, such as Long Island Hospital, while others prefer to remain at home while waiting for a vacancy if the doctor considers it advisable. Nursing care of the patient while in the home is arranged by referring the patient to the Community Health Nurse.

The need for surgical appliances is very great, the refers for this being second only to those for convales-

PETER BENT BRIGHAM HOSPITAL

cent and nursing care. Many patients are unable to pay for surgical appliances such as orthopedic braces, special shoes, caliper splints. However, they are necessary as the next step in the treatment recommended by the doctor. Occasionally a patient on the surgical ward cannot be allowed to get up until he has the necessary appliance. The social worker secures enough social information to determine whether patient can pay part of the total cost, or whether money should be taken from one of the Social Service Funds for payment. If it is a very expensive brace, the worker raises part of the money from an outside agency.

An attractive, intelligent, thirteen-year-old Syrian girl was referred to the surgical social worker by the doctor in the Orthopedic Clinic for aid in getting a special brace costing \$35.00. This child had a very bad scoliosis condition which could not be entirely corrected but could be helped somewhat by wearing this brace. The doctor stated that without a brace worn during her growing years she would become quite deformed. This patient lived with her parents, an eleven-year-old sister, and three-year-old brother. Her father was a custom peddler and had very little business. Her mother had been the main support of the family earning \$6.00 a week in a garment factory. However, due to the Garment Workers Union strike she was out of work and did not know when she would be able to get work again. This family was absolutely unable to meet an extra expense, particularly such a large one as this special brace. Through the Kiwanis Club Committee for Underprivileged Children the necessary money was raised and the brace was secured for her. With the brace she returned to the Orthopedic Clinic where the doctor recommended that she come in three times a week to the Physiotherapy Department for exercises to mobilize the spine. Sixty cents a week for carfare proved to be more than the family could afford and the social worker provided street-car checks. The patient, during all this time, came in

REPORT OF THE SOCIAL SERVICE DEPARTMENT

faithfully three times a week. The doctors felt that her condition, although only slightly improved, was definitely not becoming worse as they had feared, and they considered it was very worthwhile continuing the present line of treatment indefinitely.

Transportation to and from clinics for patients unable to come by street-car is another problem that must be met. Two classes of patients in general need this kind of service: (1) Patients with fractures who are coming to the hospital for physiotherapy several times a week; (2) Cancer patients who come daily for a course of X-ray treatments. This problem has been solved by the cooperation of the Red Cross Motor Corps who have transported many of our patients, and the gift of a small fund which can be used for taxis in an emergency.

There were 79 patients referred with a diagnosis of cancer. The placement of these patients is very difficult in view of the lack of beds in hospitals giving care to these cases. The State Hospital for Cancer at Pondville has only a few beds for those who cannot return home after treatment is completed. Forty of the 79 patients were referred for terminal care.

The Follow-Up and Tumor-Neuro Clinics have been meeting regularly once a week on Tuesday and Thursday afternoons respectively. There is a clinic secretary in each clinic. A system of follow-up is carried out, cards and letters being used to remind patients of their appointments. If these fail, home visits are made in urgent cases.

Psychiatric Clinic

Dr. Robert Fleming who has charge of the new Psychiatric Clinic has asked for a social worker. It is to be hoped that a psychiatric social worker may be added to the present staff. Until this is possible a volunteer is assisting in the clinic. This psychiatric social worker could also help in the social case work of the Luetic Clinic.

Report of Work in the Luetic Clinic

The Social Service Department has as in the past been given the responsibility of the clinic management, financial arrangement with patients as to payment for luetic treatment, follow-up, and in as far as our limited personnel allows casework. This September there was a new development that promises well.

In 1937 under the Social Security Act money was available to the State Board of Health for a project in the control of Syphilis and Gonorrhea. The Board decided after many consultations that an interesting and useful use of grant would be an intensive follow-up of patients with these diseases and a search for contact cases that should be examined and treated if necessary. The territory in and about Boston was divided into five districts and a full-time Public Health Nurse or Social Worker termed an Epidermatologist was appointed. Each worker had her office in one hospital and Miss Marion Hampton, Peter Bent Brigham Hospital graduate, was assigned to this hospital. These workers call on lapsed cases who have failed to respond to follow-up

REPORT OF THE SOCIAL SERVICE DEPARTMENT

letters or possible contacts, in an effort to get them to the clinic. This much needed work has resulted in many of the lapsed cases returning. The Board of Health wished this project to be a strictly Public Health measure and the workers were instructed to turn over any knowledge of social problems gained on the visit to the Social Service Department. As our clinic has had a good system of follow-up that kept the majority of patients who showed reasonable cooperation coming regularly, this special follow-up project brought back a group that are hard to hold to the regular treatment necessary once they have been re-instated. There is no doubt of the value of the follow-up but it does mean that we have to meet the increased clinic load with the attendant problems. From the casework the following examples are given:

A young woman had a recent luetic infection. She had been employed as a housemaid. We gave the Board of Health the name and address of her employer and they got in touch with the family physician who in turn talked the situation over with the family and presumably checked-up on possible infection. Worker found that the girl had come on a few months before from a mid-western state and finally when enough treatment had been given to render the girl non-infectious, she was returned home, the State paying her expenses. The family telegraphed that they could care for her but could not provide train fare. The hospital gave the patient a letter to give a doctor when she arrived. This asked him to write us for a full report. Shortly after her return we received word from a luetic clinic that she had reported for treatment and the hospital sent them our report.

A sixteen-year-old run-a-way was traced through the help of the Social Service Index. The girl had gonorrhea and lues in an infectious stage. Her record showed sex delinquency since the age of twelve. She had been on probation and in foster homes and had never been stable

PETER BENT BRIGHAM HOSPITAL

enough to keep out of difficulties. She was, at the time she turned up in the Luetic Clinic, apparently living with a man in the South End and as she was already on probation she was taken into court for violation of her probation and sent to the Girls' Training School where she will get medical care and the community will be protected.

Report of Work in Cardiac Clinic

A social history is taken on every patient referred to the Cardiac Clinic so that the worker can report to the doctor any unfavorable conditions in the home, school, or place of employment. The purpose and functions of the clinic and follow-up system is explained to the pa-

PETER BENT BRIGHAM HOSPITAL

tient in order that, even though there is no social problem at the moment, the way is prepared for the patient or his family to consult the worker should need arise.

The interpretation of the patient's condition either to himself or to the community, i.e., school, employer, or social agencies, is a function of the worker. Another function is the actual case work by which it is made possible for patient to carry out the treatment prescribed by the doctor.

The Medical Service

Many types of problems have been brought to the medical social worker. They have been all the way from a request for an old school report needed to round out the history of a young man on the wards where the diagnosis was still in doubt, to requests for help over a long period to a family where the bread winner was facing chronic invalidism or had died on the ward. There were 328 new patients referred. Many of these meant a short contact as arranging for convalescent care for a working girl where her job was held open and the only problem was getting her to a suitable convalescent home. Some of the tuberculosis patients seemed at first to require only a short contact but even these often mean a long time interest. Many of these patients after they leave the sanatorium, write or call to talk over some new situation.

Student Dietitians have been sent to the Social Service Department for three or four weeks to get experience in making out diets for patients living at home. The students observe in the clinics mornings, and call at the homes of the patients in the afternoons. This practice has been of considerable value to the Social Service Department as it enables the workers to know how much an adequate or special diet should cost. The Public Welfare will often increase aid for patients with tuberculosis, gastric or duodenal ulcers and severe malnutrition but the Welfare asks for a list and an approximate cost of this list.

The Social Service Department has been active in the Arthritic Clinic. A clinic secretary has attended each clinic day. Considerable help has been given in transportation of these patients.

Total number of patients.....	455

✓

The service given by the Red Cross Motor Corps has been more efficient than ever before. They have made at least 650 trips to the hospital bringing patients who are unable to travel on street-cars.

Members of the Junior League, Inc., of Boston have served as volunteer workers, helping in several of the clinics.

Through the kindness and generosity of the Ladies Committee the Head Worker was able to attend the International Conference of Social Work held at London, England, last summer.

The Ladies' Committee has held meetings once a month except through the summer. The staff workers attended and gave reports of their activities.

Last May the Ladies' Committee took over one of the nights at Pops Concert for the benefit of this department.

This year a check for \$70 was given the department for Christmas baskets from the Mary A. Crabtree Fund.

FINANCIAL REPORT—1936

This Department received from the Community Federation Drive of 1936, \$835.20, which was used for

REPORT OF THE SOCIAL SERVICE DEPARTMENT

patients receiving public welfare aid. Eight hundred dollars was given the Department by the Permanent Charity Fund, Inc., for patients not on public welfare. One thousand thirty-seven dollars and thirty-two cents (\$1,037.32) was raised through other agencies and friends for special needs.

Report of the Surgeon-in-Chief

THE PAST year has brought unusual changes in the staff of the department of surgery. Illness made it necessary for Dr. Cheever to go west to a high, warm, and dry altitude in the fall of 1936, and he has been given a year's leave of absence. His leaving has poignantly indicated his great services to this hospital, for we miss his sound guidance and cheerful shouldering of extensive teaching responsibilities. Dr. Homans has also been granted a leave of absence for the academic year that he might go to Yale as Professor of Surgery *pro tempore* and Chief Surgeon of the New Haven Hospital to replace Dr. Samuel C. Harvey who has been forced by illness to be away from active duty for a period of time. This removal of two senior staff members has thrown on the remainder of the staff an unusually heavy responsibility both in teaching and in the care of patients, and has strikingly pointed out the great load which our small staff carries. This is even more sharply depicted by a comparison of the number of teachers at the Massachusetts General Hospital and the Peter Bent Brigham Hospital. If one considers all teachers in general surgery, the Massachusetts General Hospital has a total of twenty-eight as opposed to ten at the Peter Bent Brigham Hospital. When one considers that we teach second, third, and fourth year students on our wards and in the O. D. D., that we have a very popular voluntary course of operative surgery on animals for the third year class and an introductory course for the second year class carried on by the same group in our Laboratory of Surgical Research, it is obvious that any loss in our teaching force is keenly felt by those who remain.

PETER BENT BRIGHAM HOSPITAL

The difficulty this year has been met by increasing the work of Dr. Francis Newton and myself; by giving Doctor Zollinger an active share in the ward and operating room responsibility for three months, and by elevating Dr. Charles D. Branch, the former Resident Surgeon, to the position of Junior Associate, harboring him in the offices previously used by Dr. Homans and giving him in turn a three months' period of responsibility in the wards and operating rooms. Doctor Cheever's first-year course I have taken over. Doctor Zollinger and Doctor Branch have divided the third-year section teaching among themselves, Dr. George Wilkins and Dr. Leslie Van Raalte, the latter a new appointee as Junior Associate in Surgery. The third-year class lectures of Doctor Cheever and Doctor Homans have been divided among all the staff so that no one individual is unduly overloaded. It is surprising, however, to find that any addition to the teaching load means much added effort which is a sure indication that at our hospital the teaching as previously borne is about as great as individuals should assume. Moreover it is certain that such a load as we have borne this year tends to reduce the enthusiasm for teaching which is one of the immeasurable qualities so essential to real education. The experience this year should be of value in emphasizing the desirability of a somewhat larger teaching group unless as with our sister department, medicine, we relinquish second-year teaching at this hospital.

But the department of surgery has not been alone in the removal of senior members this year and since we are such a closely knit family it is proper that we record here the resignation of Dr. Reginald Fitz from the department of medicine in order that he might accept the posi-

REPORT OF THE SURGEON-IN-CHIEF

tion of Wade Professor of Medicine, Boston University School of Medicine, and Director of the Evans Memorial unit. We in the surgical department shall miss his happy presence, friendship, and great abilities equally with the department of medicine.

On February 17, 1936 the pupils of Doctor Christian surprised him with the delightful birthday gift of a Collection of Medical Papers written by them and presented at a hospital meeting by Dr. Francis Blake, now Professor of Medicine, Yale University, and formerly House Officer, assistant resident physician and resident physician in this hospital. This expression of gratitude, affection and esteem is the greatest homage a teacher can ever experience and no person in this country in our time more justly deserves this honor. The great number of former members of the medical service who now hold distinguished teaching posts in our country as well as the large number of highly trained, effective and successful practitioners is the real mark of Doctor Christian's great abilities and fine devotion to the best traditions of medicine, qualities that have played a chief rôle in establishing the high position this hospital now holds. We of the surgical service take the greatest pleasure in noting in our hospital records this happy and important birthday.

Notes concerning our senior personnel can be further brightened by recording the unusual pleasure we experienced during two weeks last spring when Dr. H. K. Giertz, Surgeon-in-Chief, Sabbatsbergs Sjukhus, Stockholm, was resident here as Surgeon-in-Chief *pro tempore*. Doctor Giertz possesses the ideal personality and faculties for a teacher. He revealed not only an ardent enthusiasm for forward movements in surgery but a meticu-

PETER BENT BRIGHAM HOSPITAL

lous responsibility for the perfect care of the individual patient which gave to the staff an indelible memory of his stay here. No *pro tempore* Chief ever assumed the responsibilities of his office with greater assiduity. His rounds were carefully made, he gave four carefully prepared papers during his stay, and his thoughtfulness for the patients will never be forgotten by the house staff who benefited from his example.

Most of the changes in the senior staff have been recorded above, that involving a change of title being the elevation of Doctor Branch, previously resident surgeon, to the post of Junior Associate in Surgery. At the time of writing this I greatly fear that we shall lose him from the staff before another report can be written, for much as we would like to keep around us more of our own pupils the opportunity to settle in a more permanent position elsewhere is something we cannot counterbalance. During the past year Dr. Donald MacDonald, who has served since 1930 as Junior Associate in Otolaryngology, has resigned, leaving Doctor Richards with a Voluntary Graduate Assistant, Dr. Samuel Cline, to carry on our Otolaryngological work. During the past year there has been added to our Junior Associate staff Dr. Leslie H. Van Raalte, a graduate of the Harvard Medical School in 1932, who served for one year in our surgical laboratory before completing his clinical training at the Boston City Hospital. His presence in the various clinics of the O. D. D. is of great assistance to us. We have also added Dr. Paul Hugenberg as Voluntary Graduate Assistant in Orthopedic Surgery and Dr. Harry Stone as Junior Associate in Dental Surgery.

The changes in the house staff have been as follows: Dr. John E. Dunphy, previously interne and assistant resident surgeon, replaced Doctor Branch as resident

REPORT OF THE SURGEON-IN-CHIEF

surgeon when the latter was moved in December into a senior staff position. In addition to his surgical training Doctor Dunphy has had the benefit of Doctor Wolbach's teaching in the department of pathology, a most valuable experience for any surgeon. Among the Fellows Doctor Quigley, who at the beginning of the year was Peters Traveling Fellow, came back to be Arthur Tracy Cabot Fellow for a period of four months after which he became assistant resident surgeon. Doctor Quigley was followed in the important post of the Arthur Tracy Cabot Fellowship by Dr. John L. Keeley who came to us from the University of Wisconsin where he had four years training in clinical surgery. His administration of the laboratory has been admirable. His investigative work as well as his assistance in the teaching of the third and second-year courses in the laboratory are of great benefit to us. Doctor Harrison is remaining another year as Urological Fellow. Dr. Max T. Schnitker, through the generosity of Mr. Amory, remained as Neurological Fellow until July, 1936, at which time he left to continue his training in London, first at the Queen Square Hospital and later as resident surgeon to Mr. Hugh Cairns at the London Hospital. As his experience abroad is aided by a grant from the Harvey Cushing Fellowship the change was most appropriate since Mr. Hugh Cairns was one of Doctor Cushing's most able neurological residents for the period of October 1, 1926 to September 15, 1927. During the year we were able to have two additional Harvey Cushing Fellows: Dr. Philip Shambaugh, who spent six months in Europe and then transferred to the Presbyterian Hospital, Chicago, as resident surgeon, and Dr. Michael Pijoan who is in charge of our surgical laboratory in the Brigham Hospital. Doctor Pijoan had been working in the sur-

gical laboratory a year previously supported partly by a grant secured by Doctor O'Hare and partly by a grant from surgical funds, assisting in our study concerning hypertension. He now devotes his full time to problems within the department of surgery and is responsible in addition to his investigative work for the administration of the hospital surgical laboratory so that we can have accurate chemical assays of such materials as we require for either experimental studies or routine clinical care. Beginning in the fall of 1936 we have had two Research Fellows attached to the urological service: Dr. Egon Wildbolz, son of the Professor of Urology, Berne, a mature student in this special field, and Mr. A. Ruscoe Clarke, a Fellow of the Royal College of Surgeons who after a thorough surgical training at Guy's Hospital comes to this country to perfect himself in urological technique.

The assistant resident surgeons have progressed at the usual intervals. Doctor Dunphy completed his tour of duty in March and went to Doctor Wolbach's pathological laboratory for training until he moved back into the department of surgery as resident surgeon in December. Dr. Walter Reiling finished his service in July and left us to assume the practice of surgery in his home town, Dayton, Ohio. No assistant resident surgeon was more popular among the house staff nor has seemed better qualified for the practice of surgery. Doctor Dupertuis, who had previously had the advantage of a Peters Traveling Fellowship, finished in November and in competitive examinations was granted a post with the United States Public Health Service. His post is a part of the new order of things in this Service, for the U. S. P. H. S. having for years utilized practicing surgeons in communities as adjuncts for the surgical work in

REPORT OF THE SURGEON-IN-CHIEF

U. S. P. H. hospitals have now set up a scheme whereby it desires to take into its service highly trained young surgeons who are to carry on an active surgical career rather than have to assume as heretofore the regulation duties as quarantine officers or other non-surgical work as a part of their activities. This may be an educational project of great value to our people, possibly adopted from the Swedish system, and represents one way in which the State may take a larger share in caring for the immediate ills of our people. It is stated that the Government is to spend considerable sums building up hospitals in the U. S. P. H. S. throughout the country, and it is possible that these hospitals which will care for veterans, certain government employees and perhaps individuals who come under the social security act, may eventually assume a greater care of the people than we now imagine.

The internes have changed as follows: In March Doctor Bates returned to Chicago for further hospital training and Doctor Durant went to the Boston City Hospital as resident surgeon on the Tufts service under Dr. Horace Binney. In July Doctor Anderson left us for a period of training at the Lying-In Hospital, Boston, and Doctor Peterson for further training in cancer work at the Memorial Hospital, New York City. In November Doctor Hall accepted the interesting post as Surgeon on the sloop *Yankee* which was about to start on a cruise around the world, and Doctor Abell returned as his father's assistant in Louisville, Ky.

This gives me the opportunity to announce that during the summer and fall of 1936 Doctor Ladd and I were able to complete our arrangements for a further intimate liaison between the Children's Hospital surgical service and the Brigham Hospital surgical service, so that

PETER BENT BRIGHAM HOSPITAL

in the coming interne examinations in January, 1937, we shall examine applicants for a joint service at the two hospitals. The service is to consist of a one-year service at the Children's Hospital and a sixteen-month service at the Peter Bent Brigham Hospital. The men will commence their work by coming to the Brigham Hospital for laboratory work for four months. They will then go to the Children's Hospital for one year, and will finally return to the Brigham Hospital for one year. During the service they will have a vacation of one month. Candidates who have had six months service in Pathology will be given preference. We have arranged with Doctor Wolbach that the men accepting the later appointments can act as internes in pathology at both the Children's and the Brigham Hospitals until such appointments begin. This is a momentous step to take but it should give to our internes an experience which will more than compensate for the time this service will consume. Our Trustees were glad to accept this change, though they marveled at the amount of time a young man had to put into a post-graduate training in order to consider himself well qualified. As this proposal has already been announced to the student body we can say now that it has been most favorably received and we hope that the better men in the next graduating class will be tempted to apply in large numbers.

The list of publications represents the activity of the clinic and in particular emphasizes the productivity of the house staff. Our senior staff is small and it will be

noted that the great percentage of the output listed above is from members of the junior staff. The work is fairly equally divided between clinical studies and experimental work in the laboratories, and perhaps the fact that we live in a relatively small hospital where the wheels of routine do not usurp all of a man's time allows our men to further their education by following their curiosity into such productive work. Moreover a considerable amount of investigation goes on in our laboratories in collaboration with men from other departments and this additional usefulness of our laboratory is a source of gratification.

This matter, however, of supporting two active laboratories, one at the hospital and one at the school, is a serious strain on the budget, and each year it becomes our responsibility to look elsewhere for additional funds to support such work. The question yearly arises of how much one can collect, since if one surrounds oneself with inquisitive, eager men, the number of problems presenting themselves for solution has no end. For the additional support of such work we are much indebted to a gift from Mr. William Amory, President of the Board of Trustees. His continued generosity has made possible additional workers, the acquisition of much needed apparatus and has lifted from our shoulders much of the worry that goes with trying to balance insufficient budgets.

Table A, which covers the general hospital statistics of the Department of Surgery, shows the largest number of discharges ever recorded, 2,918 patients. With this large turnover goes the second highest number of operations and a falling-off in the percentage of cases operated upon. It is inevitable that we should have a considerable number of traumatic cases for whom surgery is not

REPORT OF THE SURGEON-IN-CHIEF

necessary, or perhaps the diminution in the percentage of people submitted to surgery represents a conservative attitude that is reflected in the continuing of our low operative mortality of 3.6 per cent. The total number of operations remains above 2,000 and should give us a volume of work sufficient for the training of the small staff which we choose to have.

PETER BENT BRIGHAM HOSPITAL

Transfusions ...	70	28	76	58	71	
Miscellaneous	164	210	268	225	326	
Total	2,812	2,795	3,229	2,918	3,141	

Table B represents the material broken down into the major anatomical divisions and, since it shows no great

REPORT OF THE SURGEON-IN-CHIEF

change from the previous year, needs little comment. It is printed largely for the interest of workers who might come to this clinic for study and who would like to know the type of material available. The chief change is the increase in the Genito-urinary procedures.

TABLE C

STATISTICAL TABLE WITH NUMBER OF DEATHS AND PERCENTAGE OF AUTOPSIES OBTAINED IN THE DEPARTMENT OF SURGERY (exclusive of medicolegal deaths)

Autopsies

	Deaths	Autopsies	
		Number	Percentage
1923.....	120	63	52.5
1924.....	131	95	72.5
1925.....	113	77	68.1
1926.....	127	77	60.6
1927.....	119	78	65.5
1928.....	128	83	64.8
1929.....	129	90	69.8
1930.....	96	76	79.2
1931.....	109	90	82.6
1932.....	117	84	71.8
1933.....	125	77	61.6
1934.....	115	89	77.4
1935.....	95	64	67.4
1936.....	97	69	71.1
Totals	1,621	1,112	69.2

Table C reveals that our autopsy percentage is practically unchanged. It should be noted in relation to this report that the figures in our previous reports of 1933, 1934, and 1935 were inaccurate in that the medicolegal deaths should have been subtracted from the totals before figuring the autopsy percentage, since the medicolegal cases are taken away from us by the coroner. The adjusted figures in the above report are accurate and should supplant those previously printed.

Table D is significant in that it represents a further falling-off in the O. D. D. figures, the number of new

PETER BENT BRIGHAM HOSPITAL

patients being lower than it has been at any time for ten years. This is in spite of the fact that a good deal of attention has been focused upon this part of our hospital work in the last few years, and there can be little question but that more expert service is rendered to our

TABLE D

O. D. D. STATISTICS; DEPARTMENT OF SURGERY—1925-1936

	General Surgery			Genito-urinary

1931.....	27,085	22,873	4,212	4,124	3,946	178
1932.....	30,408	25,946	4,462	5,168	5,006	162
1933.....	32,808	28,197	4,611	5,316	5,046	270
1934.....	35,437	30,846	4,591	6,082	5,889	193
1935.....	32,372	28,116	4,256	5,506	5,337	169
1936.....	31,839	27,925	3,914	5,498	5,338	160

ambulatory patients. The explanation to me lies in the fact that, as we entered the depression, doctors sent their poorer patients in increasing numbers to the dispensary or hospitals. Now, since the patients of this class are beginning to have slightly larger incomes and the income of the local physicians has been constantly depressed, the local physicians are glad even for a smaller fee to care for patients whom preceding the lifting of the depression they would not care for. It would appear that only when the depression lifts further and the local physician can hope to demand a larger fee will such patients again resort to the ambulatory clinics of our hospitals.

This leads us inevitably to the effect of the depression upon our finances. This has been harped upon so much that one fears lest not only ourselves but those whose

REPORT OF THE SURGEON-IN-CHIEF

interest leads them to turn these pages will develop some special form of psycho-neurosis concerning this ailment. It is certain, however, that we should be derelict in our duty to the Trustees and those who have gone before us and those who are to follow, if we do not continually make the effort to bring our income into alignment with our desires to work. As has been pointed out before, not only have we during these years of depression been spending capital and thereby reducing our income, but we have been living in a plant in which there has never been any serious replacement of major equipment for almost twenty-five years. During that period a tremendous development has taken place in technical apparatus, an advance that we have been unable to benefit from through want of funds. Our wards need both better arrangement and better apparatus for the modern care of sick people. Our work in the operating rooms could be greatly assisted by a rearrangement of the space available and by the establishment of a separate unit for autoclaves and for general hospital sterilization, and greater facility at the operating tables would be given by sums spent upon instruments and apparatus. We cannot look with equanimity upon a continuation of the "status quo." It is not that we wish to inaugurate major changes, but merely that obsolete and worn-out apparatus needs replacement. In order to further this point of view, and with the hope that a proper memorial might be erected within this hospital for its first Chief Surgeon, we have recommended to the Trustees, and they have approved, that a drive for funds be made in order that the apparatus, instruments, and space within the surgical pavilion be restored and brought up to the best that is in modern usage. When such a drive has been completed and funds accumulated, we shall then name the surgical pavilion

PETER BENT BRIGHAM HOSPITAL

which houses our operating rooms, sterilizing rooms, surgical laboratory, and the Surgeon-in-Chief's offices *the Harvey Cushing Surgical Pavilion*. This will leave a permanent memorial to him who by his works and example assisted in bringing this hospital in a period of a few years to a place of international importance. We are hoping that such a drive for funds may shortly be started and successfully consummated.

ELLIOTT C. CUTLER,
Surgeon-in-Chief.

DECEMBER 31, 1936.

Report of the Physician-in-Chief

DURING 1936 again has there been an inability of the Hospital to pay its running expenses even after widespread economies had been instituted and a very considerable fund was made available through the activities of the Boston Community Federation. This condition has necessitated further inroads on the capital of the Peter Bent Brigham Hospital, which in turn has resulted in further reduction in income from endowment, thus catching us in a vicious cycle of increasing poverty. This situation in itself is bad enough, but that is not the whole story. Prior to the present depression the Hospital had reached an age which made many features antiquated. The needs of the modern hospital change rapidly. What was entirely adequate when the hospital was opened in 1913, no longer, twenty-three years later, is even reasonably adequate. Today we are carrying on as best we can with reduced budget in a plant no longer satisfactory. Still another handicap exists in the reduced salaries and wages, put into effect five years ago and still continued to date. We are asking our personnel now to work for less pay at a time when living costs have increased. It is to be recognized, too, that these people did not receive an increased wage in good times, when others very generally had their pay increased. For some of these people pay reduction constituted a failure on the part of the corporation to live up to definite agreements made at the time of employment, agreements which in some instances involved resignation from some part-time, remunerative work on the request of the Corporation of the Peter Bent Brigham Hospital. In all fairness the Corporation should regard this as an obligation of indebted-

PETER BENT BRIGHAM HOSPITAL

ness to be met in the future. Otherwise it will be obvious that they have failed to live up to obligations that they have incurred, a condition certainly likely to render hospital salaried positions of the future insecure and so unattractive. In the coming year or two age retirement will necessitate replacement of people important for the future success of the work of the Peter Bent Brigham Hospital. How can it be expected to attract worthwhile people to these posts, unless very prompt and effective steps are taken to replace expended capital and to secure additional funds for replacements and improvements of plant and to pay off past obligations, so that it may be said that any agreement made by the Corporation of the Peter Bent Brigham Hospital will be kept in its entirety?

Resignation of President of the Corporation. During 1936 Mr. Charles P. Curtis resigned as President of the Corporation after holding that position for twenty-one years. Mr. Curtis rendered a splendid service during this period to the Peter Bent Brigham Hospital. We of the staff valued his wise advice and his help and appreciated the fine qualities of his personality. During the year our appreciation of him was expressed in a testimonial signed by members of the staff and presented to him at a very largely attended dinner. He will be much missed by all of us.

Physicians-in-chief, pro tempore. In 1936 we enjoyed having two to serve as Physician-in-Chief, *pro tempore*. First came James E. Paullin, Professor of Clinical Medicine at Emory University and Visiting Physician to the Grady Hospital at Atlanta, Georgia. He was the twenty-second to render us this service. Doctor Paullin combined a singularly charming, genial personality with a delightfully incisive way of emphasizing important

REPORT OF THE PHYSICIAN-IN-CHIEF

relationships in the clinical problem set by the individual patient that he was examining and demonstrating.

A little later Lord Horder, first baron of Ashford, physician-in-ordinary to his majesty, King Edward VIII, and Senior Physician, *Emeritus*, to St. Bartholomew's Hospital, London, spent an all too brief time at the Peter Bent Brigham Hospital as twenty-third Physician-in-Chief, *pro tempore*. Cosmopolitan as a practitioner of medicine and a knower of men, Lord Horder had no hesitancy in expounding his views of medical problems, though he might not be sure of the agreement of his auditors. His method of teaching clinical medicine was more largely on the basis of questions to which he demanded logical and direct answers without circumlocutions, than ordinarily is the custom in this country.

The visits of these periodical physicians-in-chief, *pro tempore*, give an opportunity to members of the staff, young and old, to observe how outstanding clinicians meet and manage the problem of disease and its effects in patients and how they utilize their observations and acquired knowledge to teach important phases of medicine. One truly great clinician may have methods quite different from those of another, and yet each will arrive at an essentially similar conclusion. From all of them each of the Staff learns much of great value. Each *pro tempore* leaves behind things that we utilize in bettering our care of patients. To them always are we indebted for their willingness to come to serve us.

A Birthday Volume. For your physician-in-chief the outstanding event of 1936 was the presentation on his sixtieth birthday of a volume containing 101 studies by past and present members of the Medical Staff of the Peter Bent Brigham Hospital. The high quality of the work in this volume and the catholicity of its character

PETER BENT BRIGHAM HOSPITAL

has been attested by numerous laudatory reviews in various medical journals. To your physician-in-chief the honor, thus rendered to him, is one cherished beyond anything else that could have been done; to have won the affection, thus expressed, of a group of men so able as these is a reward which fittingly culminates twenty-three years of happy striving at the Peter Bent Brigham Hospital to create a medical service capable of giving a worthwhile training in medicine to young men, a training on which by their own efforts they might build wise ways of utilizing medical knowledge and becoming highly useful to the communities to which they scatter after leaving their Hospital.

Changes in Staff. On September 1, 1936 Dr. Reginald Fitz resigned from the staff to become Wade Professor of Medicine at Boston University and Director of the Evans Memorial. For fourteen years Doctor Fitz served us well as Physician after having been previously Senior Medical House Officer, 1912-13 and Assistant Resident Physician, 1913-1915. Thus is broken a close association begun, when your physician-in-chief was an assistant to Doctor Fitz' father, Dr. Reginald Heber Fitz, in charge of fourth-year clinical clerks in the wards of the Massachusetts General Hospital and the son was just entering on his medical course at Harvard. Doctor Fitz will be greatly missed by his associates on the staff of the Peter Bent Brigham Hospital.

Dr. Robert T. Monroe, Medical House Officer, 1924-25, Assistant Resident Physician, 1925-26, Junior Associate in Medicine, 1926-32, Associate in Medicine, 1932-36 was appointed Physician to fill the vacancy erected by the resignation of Doctor Fitz.

Drs. John M. Flynn and William T. Salter have been promoted from Junior Associate to Associate in Medi-

REPORT OF THE PHYSICIAN-IN-CHIEF

cine. Dr. Andrew W. Contratto, Assistant Resident Physician, 1934-36, Dr. Robert Fleming, Medical House Officer, 1931-32 and Dr. Harry B. Friedgood, Medical House Officer, 1928-30 have been appointed as Junior Associates in Medicine.

On August 1, 1936 Dr. Eugene C. Eppinger resigned as Resident Physician. Doctor Eppinger was Medical House Officer, 1931-33, Assistant Resident Physician, 1932-33 and Resident Physician, 1933-36. The position of resident physician at the Peter Bent Brigham Hospital is of great importance and responsibility in the organization of the resident staff, requiring good clinical judgment, extensive medical knowledge and the ability to keep a rather complex organization running smoothly in its various relationships to patients, nurses, administrative officers and resident and visiting staff members. To him the Physician-in-Chief delegates much responsibility. Doctor Eppinger carried on all of these duties in a strikingly efficient and satisfactory way. His next jobs, Physician, Industrial Relations Division of the Procter and Gamble Company, soap manufacturers, Instructor in Medicine, Cincinnati College of Medicine and Assistant Clinician, Cincinnati General Hospital, we believe will be filled in the same way to the great satisfaction of those for whom and with whom he will work.

Doctor Eppinger has been succeeded as Resident Physician by Dr. Maurice A. Schnitker, B.S., University of Toledo, 1929, M.D. University of Michigan, 1931, Medical House Officer, Peter Bent Brigham Hospital, 1932-33, Assistant Resident Physician, 1933-36.

During 1936 Drs. Paul B. Cassaday, Andrew W. Contratto, Clayton B. Ethridge and William Evans resigned as Assistant Resident Physicians, Cassaday first to accept a position in a C. C. C. Camp and later to enter practice

PETER BENT BRIGHAM HOSPITAL

in Nantucket, Mass., Contratto to become Junior Associate in Medicine at the Peter Bent Brigham Hospital and to begin practice in Boston, Ethridge to commence practice in Washington, D. C., and Evans in Detroit, Mich. They have been succeeded by Dr. John B. Alsever, Harvard '34, Dr. John A. Boone, Harvard '33, Dr. Gale G. Friend, Harvard '35 and Dr. James A. Kennedy, Vanderbilt '34, all formerly medical house officers at the Peter Bent Brigham Hospital and Dr. Howard A. Lindberg, M.D., Northwestern University '34, formerly interne at the Evanston (Illinois) Hospital and Dr. Edward Massie, M.D., Washington University '35, formerly interne, Barnes Hospital, St. Louis. Dr. Roger W. Robinson, M.D., Northwestern '35, formerly Resident in Medicine, Passavant Hospital at Chicago, served a short term as Assistant Resident Physician and then became Voluntary Graduate Assistant and Research Fellow in Medicine, Harvard University, to conduct experimental investigations in the Harvard Laboratory of Medicine.

As Medical House Officers the following men completed their service and commenced other work. Drs. John A. Boone, M.D., Harvard '33 and James A. Kennedy, M.D., Vanderbilt '34, to become Assistant Resident Physicians at the Peter Bent Brigham Hospital; Dr. Samuel J. King, M.D., Harvard '34, to become District Physician of the Boston Dispensary; Dr. John B. Alsever, M.D., Harvard '34, to become Assistant Resident Physician at the Peter Bent Brigham Hospital; Dr. Laurence E. Putnam, M.D., Harvard '34, to become Surgical House Officer at the Beth Israel Hospital, Boston and Dr. Garrett L. Sullivan, M.D., Harvard '34 to become House Officer at the Massachusetts Eye and Ear Infirmary, Boston.

REPORT OF THE PHYSICIAN-IN-CHIEF

Publications for 1936. During 1936 certain lines of investigation have been pursued by the members of the staff, as shown by the following list of publications. Some of these represent work actually done in the preceding year, but, according to our custom, are noted in the Annual Report only after their completion and publication, thereby avoiding duplication in being noted once when the work is under way and the second time when completed and published.

In closing my twenty-third annual report again I express my thanks to the many individuals who have cooperated in the medical work of the Peter Bent Brigham Hospital. Each year a committee of ladies, friends and wives of staff members, plan and carry out in the wards a delightful Christmas celebration with carols, music and presents from illuminated Christmas trees, greatly enjoyed by patients and staff. Such an event serves a valued end in creating esprit de corps and welding us into a happy family. Our thanks, not expressed in each annual report, go, however, annually from our hearts to these ladies. The ladies-in-gray of the Red Cross work each week in the hospital and in many ways help us in making the stay of our patients more pleasant; this not alone brings pleasure but contributes, too, to the well-being and professional progress of our patients; we appreciate their services to us. This report ends twenty-three years of service as Physician-in-Chief, years that have passed with great rapidity by reason of the pleasantness of associations within the walls of the Peter Bent Brigham Hospital, associations for which I am profoundly grateful.

HENRY A. CHRISTIAN,
Physician-in-Chief.

DECEMBER 31, 1936.

REPORT OF THE PHYSICIAN-IN-CHIEF

Summary of Medical Statistics

JANUARY 1, 1936 TO JANUARY 1, 1937

Total number of medical admissions in 1936 ...	2,045	
Total number of medical cases remaining in the wards, January 1, 1936.....	73	
	—	2,118
Total number of medical readmissions dis- charged in 1936.....	549	
Total number of medical new cases discharged in 1936.....	1,482	
	—	2,031
Total number of medical cases remaining in the wards, January 1, 1937.....	87	
	—	2,118
Total number of deaths.....		222

Visiting Physicians and Surgeons *Pro Tempore*

SIR CHARLES BALLANCE

K.C.M.G., C.B.; Consulting Surgeon to British Army, 1914-19; Col., R.A.M.C.; Consulting Surgeon to St. Thomas Hospital and to the National Hospital for Paralysis and Epilepsy; *Surgeon-in-Chief pro tem.*, *P. B. B. H.*, October 15 to October 25, 1928. *Deceased.*

DR. LEWELLYS F. BARKER

M.B., Univ. of Toronto, 1890; M.D. (Hon.) Univ. of Toronto, 1905; Queen's, 1908; LL.D., McGill, 1911; Emeritus Professor of Medicine, Johns Hopkins University and Visiting Physician, Johns Hopkins Hospital; *Physician-in-Chief pro tem.*, *P. B. B. H.*, April 21 to April 27, 1931.

DR. FRANK BILLINGS

M.D., Northwestern Univ., 1881; M.S., *ibid.*, 1890; Sc.D., Harvard, 1915; Professor of Medicine, Northwestern Univ., 1891-98; Professor of Medicine, Rush Medical College, 1898-1905; Professor of Medicine, Univ. of Chicago, 1905-24; *Physician-in-Chief pro tem.*, *P. B. B. H.*, May 15 to May 20, 1916. *Died September 20, 1932.*

DR. LEWIS A. CONNER

Ph.B., Yale Univ., 1887; M.D., Columbia Univ., 1890; Physician, New York Hospital, 1905; Professor Clinical Medicine, Cornell Univ. Med. School, 1905-16; Professor of Medicine, *ibid.*, 1916; *Physician-in-Chief pro tem.*, *P. B. B. H.*, April 8 to April 15, 1923.

DR. CHARLES A. ELLIOTT

B.S., Univ. of Nebraska, 1895; M.D., Northwestern, 1898; Professor of Medicine, *ibid.*; Attending Physician, Passavant Memorial Hospital, Chicago; *Physician-in-Chief pro tem.*, *P. B. B. H.*, April 16 to April 22, 1933.

PROF. OTFRID FOERSTER

Professor of Neurology, Univ. of Breslau; *Surgeon-in-Chief pro tem.*, *P. B. B. H.*, October 1 to October 14, 1930.

MR. GEORGE E. GASK

Graduate of St. Bartholomew's Hospital, London, England; Consulting Surgeon, B. E. F., receiving C.M.G. and a D.S.O.; Surgeon and Director of Surg. Unit to St. Bartholomew's Hosp.; Professor of Surgery, Univ. of London; *Surgeon-in-Chief pro tem.*, *P. B. B. H.*, March 20 to April 3, 1921.

DR. H. KNUT GIERTZ

Surgeon-in-Chief, Sabbatsburg Sjukhus, Stockholm, Sweden; Surgeon to the Royal Family of Sweden; *Surgeon-in-Chief pro tem.*, *P. B. B. H.*, May 16 to May 31, 1936.

VISITING PHYSICIANS AND SURGEONS

DR. ALVAH H. GORDON

M.D., C.M., McGill University Faculty of Medicine, Montreal, 1899; F.R.C.P., Canada; Associate Prof. of Medicine, McGill; Physician, Montreal General Hosp.; *Physician-in-Chief pro tem.*, P. B. B. H., April 14 to April 20, 1935.

DR. DUNCAN GRAHAM

M.D., Univ. of Toronto, 1905; Professor of Medicine, Univ. of Toronto; Physician-in-Chief, Toronto General Hospital; *Physician-in-Chief pro tem.*, P. B. B. H., March 3 to March 10, 1929.

DR. EVARTS GRAHAM

M.D., Rush Medical College, 1907; Professor of Surgery, Washington Univ., St. Louis, Mo.; *Surgeon-in-Chief pro tem.*, P. B. B. H., April 26 to May 3, 1925.

DR. JAMES B. HERRICK

A.B., Univ. of Mich., 1882; Hon. A.M., *ibid.*, 1907; M.D., Rush Medical College, 1888; Professor of Medicine, *ibid.*, 1900; Attending Physician, Presbyterian Hospital, Chicago, Illinois, 1895; *Physician-in-Chief pro tem.*, P. B. B. H., February 15 to February 21, 1924.

DR. GEORGE J. HEUER

M.D., Johns Hopkins Univ., 1907; successively Associate Professor of Surgery, Johns Hopkins Univ., Professor of Surgery, Univ. of Cincinnati, and Professor of Surgery, Cornell Univ. Medical School, New York; *Surgeon-in-Chief pro tem.*, P. B. B. H., July 12 to July 16, 1932.

DR. ALBION WALTER HEWLETT

B.S., Univ. of Cal., 1895; M.D., Johns Hopkins Medical School, 1900; Professor of Internal Medicine, Univ. of Mich., 1908-16; Professor of Medicine, Leland-Stanford Jr. Univ., San Francisco, 1916-25; *Physician-in-chief pro tem.*, P. B. B. H., May 1 to May 4, 1915, and January 2 to January 8, 1916. Died November 10, 1925.

DR. CHARLES F. HOOVER

M.D., Harvard, 1892; Professor of Medicine, Western Reserve Univ., Cleveland, Ohio; *Surgeon-in-Chief pro tem.*, P. B. B. H., February 3 to February 9, 1924. Died June 15, 1927.

LORD HORDER

M.D., Univ. of London; Honorary D.C.L. (Dunhelm); F.R.C.P.; K.C.V.O.; Knight Grand Order of St. John of Jerusalem; First Baron of Ashford in the County of Southampton; Physician-in-Ordinary to the King; Senior Physician Emeritus to St. Bartholomew's Hosp.; Freeman of Shaftsbury; *Physician-in-Chief pro tem.*, P. B. B. H., May 1 and 2, 1936.

DR. CAMPBELL P. HOWARD

M.D., McGill, 1901; Professor of Medicine, McGill University, Montreal; Physician to Montreal General Hospital, Montreal; *Physician-in-Chief pro tem.*, P. B. B. H., November 16 to November 21, 1931. Died, June 3, 1936.

PETER BENT BRIGHAM HOSPITAL

DR. SAMUEL W. LAMBERT

A.B., Yale, 1880; Ph.B., *ibid.*, 1882; M.D., Columbia, 1885; A.M., Yale, 1905; D.Sc., Columbia, 1921; Professor Clinical Medicine, Columbia, 1903-19; Dean, Coll. Phys. and Surgs. (Columbia), 1904-19; Attending Physician, New York Hosp., 1896-1909; Attending Physician, St. Luke's Hosp., 1906; *Physician-in-Chief pro tem.*, *P. B. B. H.*, January 24 to January 30, 1926.

DR. HENRY ROBERT MURRAY LANDIS

A.B., Amherst, 1894; M.D., Jefferson Med. Coll., 1897; Director, Clinical and Sociological Departments, Henry Phipps Institute, Philadelphia, Pennsylvania; *Physician-in-Chief pro tem.*, *P. B. B. H.*, January 18 to January 25, 1919.

PROF. RENÉ LERICHE

Professor of Surgery, University of Strasbourg; Professor of Surgery, University of Lyons, 1932; *Surgeon-in-Chief pro tem.*, *P. B. B. H.*, June 12 to June 20, 1929.

DR. DEAN DEWITT LEWIS

A.B., Lake Forest Univ., 1895; M.D., Rush Med. Coll., 1899; Associate Professor of Surgery, Rush Medical College, 1919-25; Attending Surgeon, Presbyterian Hosp., Chicago; Professor of Surgery, Johns Hopkins Univ., 1925; *Surgeon-in-Chief pro tem.*, *P. B. B. H.*, March 15 to March 24, 1920.

SIR THOMAS LEWIS

M.D., University College, London, England, 1906; C.B.E.; F.R.C.P.; F.R.S.; Physician, University College, London, England; Physician to Staff of Med. Research Comm.; *Physician-in-Chief pro tem.*, *P. B. B. H.*, October 26 to November 2, 1914.

DR. WARFIELD T. LONGCOPE

A.B., Johns Hopkins Univ., 1897; M.D., *ibid.*, 1901; Bard Professor of Medicine, Columbia Univ., New York, 1914-21; Professor of Medicine, Johns Hopkins Univ., and Physician-in-Chief, Johns Hopkins Hospital, 1922; *Physician-in-Chief pro tem.*, *P. B. B. H.*, January 13 to January 20, 1917.

DR. WILLIAM DE B. MACNIDER

M.D., Univ. of N. C., 1903; Professor of Pharmacology, Univ. of N. C., 1905; *Physician-in-Chief pro tem.*, *P. B. B. H.*, April 13 to April 17, 1925.

DR. THOMAS McCRAE

A.B., Univ. of Toronto, 1891; M.B.; M.D., *ibid.*, 1903; F.R.C.P., England; Associate Professor of Medicine, Johns Hopkins Univ., 1906-12; Professor of Medicine, Jefferson Med. Coll., 1912; Physician to Jefferson and Penn. Hosps.; *Physician-in-Chief pro tem.*, *P. B. B. H.*, March 13 to March 19, 1921. Died, June 30, 1935.

VISITING PHYSICIANS AND SURGEONS

DR. JAMES S. MCLESTER

A.B., Univ. of Alabama, 1896; M.D., Univ. of Virginia, 1899; Prof. of Med., Univ. of Alabama; *Physician-in-Chief pro tem.*, P. B. B. H., April 27 to May 3, 1930.

PROF. GUNNAR NYSTROM

Professor of Surgery, University of Upsala, Sweden; *Surgeon-in-Chief pro tem.*, P. B. B. H., May 23 to May 26, 1930.

DR. JAMES E. PAULLIN

M.D., Johns Hopkins, 1905; LL.D., Wesley Univ., 1928; Res. Pathol., Rhode Island Hosp., 1905-06; House Officer, Piedmont Hosp., Atlanta, Ga., 1906-07; Prof. of Clinical Medicine, Emory Univ.; Chief, Medical Service, Emory Division, Grady Hospital, Atlanta, Ga.; *Physician-in-Chief pro tem.*, P. B. B. H., February 23 to February 29, 1936.

DR. O. H. PERRY PEPPER

B.S., Univ. of Pa., 1905; M.D., *ibid.*, 1908; Prof. of Medicine, University of Pennsylvania School of Medicine; *Physician-in-chief pro tem.*, P. B. B. H., January 17 to January 23, 1937.

SIR D'ARCY POWER, K.B.E.

M.A., M.B., Univ. of Oxford, 1882; F.R.C.S. (England), 1883; Consulting Surgeon, St. Bartholomew's Hospital, London, England; *Surgeon-in-Chief pro tem.*, P. B. B. H., April 20 to May 5, 1924.

PROF. VITTORIO PUTTI

Professor of Orthopedics, University of Bologna; Director, Istituto Ortopedico Rizzoli; *Surgeon-in-Chief pro tem.*, P. B. B. H., May 30 to June 6, 1932.

DR. DAVID RIESMAN

M.D., Univ. of Pa., 1892; Prof. Clin. Med., *ibid.*; Physician, Philadelphia General Hospital and University Hospital, Pa.; *Physician-in-Chief pro tem.*, P. B. B. H., April 25 to May 2, 1927.

DR. EMMET RIXFORD

M.D., Cooper Medical College, San Francisco, 1891; Professor of Surgery, Leland-Stanford Jr. Univ.; *Surgeon-in-Chief pro tem.*, P. B. B. H., April 25 to May 9, 1927.

SIR HUMPHREY ROLLESTON, Bart.

G.C.V.O.; K.C.B.; M.A. and M.D., Cambridge University; Fellow and sometime President of the Royal College of Physicians of London; Hon. D.Sc., D.C.L., LL.D.; Fellow and sometime President of the Royal Society of Medicine; Consulting Physician (Temporary Surgeon Rear-Admiral) to the Royal Navy, 1914-19; Emeritus Physician, St. George's Hospital, London; Physician-in-Ordinary to H. M., the King; Regius Professor of Physic, University of Cambridge, Cambridge, England; *Physician-in-Chief pro tem.*, P. B. B. H., March 25 to April 1, 1928.

PETER BENT BRIGHAM HOSPITAL

DR. CLARENCE L. STARR

M.B., Univ. of Toronto; M.D., Univ. of New York; LL.D.; Professor of Surgery, Univ. of Toronto; Surgeon-in-Chief, Toronto General Hosp.; *Surgeon-in-Chief pro tem.*, *P. B. B. H.*, March 7 to March 16, 1926. Died December 25, 1928.

DR. ALFRED STENGEL

M.D., Univ. of Pa., 1889; Sc.D. Honorary, Univ. of Pittsburgh; LL.D., Lafayette College and Univ. of Pa.; Prof. of Medicine, Univ. of Pennsylvania School of Medicine; Vice-President, University of Pennsylvania; Physician, University Hospital, Philadelphia, Pa.; *Physician-in-Chief pro tem.*, *P. B. B. H.*, April 22 to April 28, 1934.

SIR HAROLD J. STILES

Kt. cr. 1918; K.B.E., cr. 1919; M.B., C.M., F.R.C.S., Edinburgh; British Colonel, R.A.M.C.; Mem. Army Med. Advisory Board; Surgeon, Royal Edinburgh Hosp. for Sick Children, and Chalmers Hosp.; Professor of Clinical Surgery, 1919-25; Late Lecturer on Applied Anatomy, Univ. of Edinburgh; *Surgeon-in-Chief pro tem.*, *P. B. B. H.*, April 8 to April 21, 1923.

DR. WILLIAM S. THAYER

A.B., Harvard, 1885; M.D., *ibid.*, 1889; LL.D., Washington Coll., 1907; Hon. F.R.C.P.I., 1912; Brig. General, U. S. A. M. C., 1918-19; Professor of Medicine, Johns Hopkins Univ., 1919-21; Physician-in-Chief, Johns Hopkins Hosp., 1919-21; Visiting Physician, Johns Hopkins Hosp., 1921; *Physician-in-Chief pro tem.*, *P. B. B. H.*, November 14 to November 21, 1913. Died December 10, 1932.

SIR CUTHBERT WALLACE

C.B., 1918; K.C.M.G., 1916; M.B., B.S., London; F.R.C.S., Eng.; Surgeon to St. Thomas' Hosp.; Dean, St. Thomas' Hosp. Med. School; Late Surgeon, East London Hosp. for Children; Lecturer on Surgery, St. Thomas' Hosp.; served in South Africa as Surgeon to Portland Hosp., 1900; European War, 1914-18; Maj. Gen., A. M. S.; Consulting Surgeon, B. E. F., France; *Surgeon-in-Chief pro tem.*, *P. B. B. H.*, April 24 to May 8, 1922.

DR. ALLEN O. WHIPPLE

B.S., M.D., Sc.D., Columbia; Prof. of Surg., Columbia Univ.; Director, Surgical Service, Presbyterian Hosp., New York; *Surgeon-in-Chief pro tem.*, *P. B. B. H.*, March 22 to March 29, 1937.

PROF. DAVID PERCIVAL DALBRECK WILKIE

O.B.E., M.D., M.Ch., F.R.C.S. (Edin. and Eng.); Professor of Surgery, University of Edinburgh; Surgeon to the Edinburgh Royal Infirmary; *Surgeon-in-chief pro tem.*, October 8 to October 11, 1929.

DR. ROLLIN TURNER WOODYATT

B.S., Univ. of Chicago, 1896; M.D., Rush Med. Coll., 1902; Clin. Professor of Medicine, Univ. of Chicago; Attending Physician, Presbyterian Hosp., Chicago; *Physician-in-Chief pro tem.*, *P. B. B. H.*, December 16 to December 23, 1921.

Traveling Fellows in Surgery

LEO M. DAVIDOFF	1926
HARLAN F. NEWTON	1927
FRANC D. INGRAHAM	1928
WILLIAM DEG. MAHONEY	1932

George Gorham Peters Traveling Fellows

ARTHUR J. McLEAN	1929
ERIC OLDBERG	1930
FRANK N. GLENN	1931
KENNETH W. THOMPSON	1933
S. MILTON DUPERTUIS	1934
THOMAS B. QUIGLEY	1935
ROBERT E. GROSS	1936

Harvey Cushing Fellows

KENNETH WADE THOMPSON	Mar. 1	-July 1, 1933
MAX T. SCHNITKER	Oct. 13, 1933	-Mar. 1, 1934
SAMUEL R. SNODGRASS	Mar. 1, 1934	-Aug. 1, 1934
CARL W. WALTER	July 1, 1934	-July 1, 1935
J. HARTWELL HARRISON	Apr. 1	-June 1, 1935
THOMAS B. QUIGLEY	July 1, 1935	-July 1, 1936
PHILIP SHAMBAUGH	Nov. 1, 1935	-July 1, 1936
MICHEL PIJOAN	Aug. 1, 1936	-Aug. 1, 1937
MAX T. SCHNITKER	Sept. 1, 1936	-Sept. 1, 1937

O.*, *P. B. B. H.*, January 1, 1928-May 1, 1929; Asst. Phys., Inst. for Feeble-Minded, Columbus, Ohio, May, 1929-July, 1929; Asst. Res. Surg., Lakeside Hosp., July 1, 1929-July 1, 1930; Crile Research Fellow in Surg., and Director of Lab. of Surg. Res., Western Reserve Univ., 1930-31; Demonstr. in Surg., *ibid.*, 1930-32; Asst. Res. in Surg., Lakeside Hosp., 1931-32; Res. Surg., *ibid.*, July-September, 1932; *Res. Surg.*, *P. B. B. H.*, September, 1932-July, 1934; Instr. in Surg., 1932-36, Austin Teach. Fellow in Surg., Assoc. in Surg., Harv.; *Jr. Assoc. in Surg.*, *P. B. B. H.*

Register of Former Members of the Staff

ADAMS, FRANK DENNETTE

Litt.B., Princeton, 1913; M.D., Harv., 1917; Med. H. O., M. G. H., 1917-18; First Lieut., M. C., U. S. Army, 1918-19; *Pathol. H. O.*, *P. B. B. H.*, October 1, 1919-March 15, 1920; *Act. Res. Pathol.*, *ibid.*, March 15-July 1, 1920; Res. Phys., B. C. H., 1920-22; Lect. in Med., Univ. of N. C., Extension Div., 1922 and 1923; H. O., So. Dept., B. C. H., 1922; Assoc. in Therapeutics, George Washington Univ.; Instr. in Med., Georgetown Univ., 1923; Assoc. Phys., M. G. H.; Asst. in Med., Harv., 1923-29; Instr. in Med., Harv.; in practice, Boston.

ADAMS, LEYLAND J.

M.D., C.M., McGill, 1927; Interne in Pathol., Montreal Gen. Hosp., 1927-28; Interne in Med., *ibid.*, 1928-29; Interne in Surg., *ibid.*, 1929-30; *Asst. Res. Phys.*, *P. B. B. H.*, September 1, 1930-July 1, 1932; Demonstr. in Med., McGill; Assoc. in Med., Montreal Gen. Hosp.; in practice, Montreal.

ALEXANDER, HARRY LOUIS

A.B., Williams, 1910; M.D., Columbia, 1914; H. O., Presbyterian Hosp., New York, 1914-16; *Asst. Res. Phys.*, *P. B. B. H.*, September 15, 1916-July 6, 1917; Major, M. C., U. S. Army; Instr. in Med., Cornell, 1919-24; Asst. Adjunct Attend. Phys., 2nd Med. Div., Bellevue Hosp., New York, 1919-24; Attend. Phys. and Visit. Pathol., Overlook Hosp., Summit, N. J., 1920-24; Chief of Asthma Dept., Cornell Clin., New York, 1921-24; Editor, *Journal of Allergy*; Assoc. Prof. Med., Washington Univ., and Assoc. Phys., Barnes Hosp., and St. Louis Maternity Hosp., St. Louis.

ALT, HOWARD L.

B.S., Northwestern, 1923; M.D., 1924, M.S., 1933, Ph.D., 1934, *ibid.*; H. O. in Med. and Surg., Wesley Mem. Hosp., Chicago, 1923-25; *Asst. Res. Phys.*, *P. B. B. H.*, July 1, 1925-September 1, 1927; Teaching Fellow in Med., Harv.; *Res. Phys.*, *P. B. B. H.*, September 1, 1927-September 1, 1929; Asst. in Kaiser Wilhelm Inst. für Biologie, Berlin, Prof. Warburg, October, 1929-April, 1930; Asst. in Med. Clin., Univ. of Würzburg, Prof. Grafe, May-August, 1930; Assoc. in Med. and Instr. in Chemistry, Northwestern Univ. Med. Sch., and Passavant Mem. Hosp., Chicago, 1930-36; Asst. Prof. of Med. and Instr. in Chem., Director of Laboratories, Director of Student Health, *ibid.*

ALT, RICHARD E.

A.B., Harv., 1927; M.D., *ibid.*, 1931; H. O., M. G. H., 1931-33; *Fellow in Urol.*, *P. B. B. H.*, 1933-35; in practice, Beverly, Mass.

PETER BENT BRIGHAM HOSPITAL

ALTNOW, HUGO OSKAR

M.D., Univ. of Mich., 1907; Interne and Asst. Surg., Northern Pac. Ry. Hosp., Brainerd, Minnesota, 1907-09; Surg., Northern Pac. Ry., and Private Practice, Mandan, N. D., 1909-24; Visit. Phys., Mandan Deaconess Hosp., 1919-24; Grad. Asst. in Neurol., O. P. D., M. G. H., May 1-July 1, 1924; *Jr. Assoc. in Med., P. B. B. H., July 11, 1924-July 1, 1925*; Visit. Phys., Glen Lake San.; in practice, Minneapolis, Minn.

ALTSCHULE, MARK D.

B.S., College of City of N. Y., 1927; M.D., Harv., 1932; *Pathol. H. O., P. B. B. H., January-July, 1932*; Med. H. O., Beth Israel Hosp., November, 1932-April, 1934; Res. in Med. Research, *ibid.*, 1934-35; Research Fellow in Med., Harv., 1934-35; Asst. in Med., *ibid.*; Research Assoc., Beth Israel Hosp.

ARMSTRONG, WILBER P.

A.B., Univ. of Ill., 1920; M.D., Harv., 1923; Interne, Fifth Ave. Hosp., New York City; *Surg. H. O., P. B. B. H., January 6-July 1, 1925*; in practice, Springfield, Ill.

ATWATER, REGINALD MYERS

A.B., Colorado Coll., 1914; M.D., Harv., 1918; C.P.H., Johns Hopkins, 1920; Dr. P.H., *ibid.*, 1921; *Med. H. O., P. B. B. H., March 1, 1918-April 15, 1919*; Dept. of Hygiene, Hunan-Yale College of Med., Changsha, Hunan, China, 1921-25; Inst. Epidemiology, Harv. Sch. Public Health, 1925-27; Comm. of Health, Cattaraugus Co. Dept. of Health, Olean, N. Y., 1927-35; Exec. Sec., American Public Health Assoc., New York.

BAGLEY, JR., CHARLES

M.D., Univ. of Stockholm, 1916; S.D., *ibid.*, 1920; Asst. Phys., Stockholm Hosp., 1915-19; Asst. Prof. Int. Med., Univ. of Stockholm, 1920; *Asst. Res. Phys., P. B. B. H., July 5, 1921-September 1, 1923*; Asst. Prof. Medicine, Harv.; *Assoc. in Med., P. B. B. H., September 1, 1923-November 1, 1925*; Prof. of Med., Univ. of Minn., and Chief, Dept. of Med., Univ. Hosp., 1925-32; Physician, S:T Erik's Hosp., Stockholm; in practice, Stockholm, Sweden.

BERRY, ARTHUR N.

B.A., Univ. of the South, 1926; M.D., Harv., 1930; House Surg., Free Hosp. for Women, August 1, 1930-March 31, 1931; *Surg. H. O., P. B. B. H., April 1, 1931-May 1, 1932*; H. O., B. L. I., May 1, 1932-November 15, 1932; in practice, Columbus, Ga.

BERRY, FRANK BROWN

A.B., Harv., 1914; M.D., *ibid.*, 1917; Pathol. H. O., B. C. H., July-December, 1917; *Med. H. O., P. B. B. H., January 9-March 1, 1918*; First Lieut. and Capt., M. C., U. S. Army, 1918-19; First Asst. Pathol., B. C. H., 1919-20; Surg. H. O., Presbyterian Hosp., New York, 1920-21; in practice, Providence, R. I., 1921-23; Res. Surg., Bellevue Hosp., New York, 1923-24; Asst. Prof. Surg., Columbia; Assoc. Surg., Bellevue and Roosevelt Hospitals; in practice, New York City.

BIRD, CLARENCE EDWARD

A.B., Univ. of Cal., 1920; M.D., Harv., 1923; Interne, Indian Harbor Hosp., Labrador, with Grenfell Mission, 1922; *Surg. H. O., P. B. B. H., July 1, 1923-November 1, 1924*; Asst. in Surg. and Pathol., Yale, 1924-25; *Asst. Res. Surg., P. B. B. H., July 1, 1925-October 1, 1926*; *Res. Surg., ibid., October 1, 1926-September 12, 1928*; Prof. of Surg., Univ. of Louisville; Surgeon-in-Chief, Louisville City Hosp.

BISHOP, COURTNEY CRAIG

A.B., Yale, 1926; M.D., *ibid.*, 1930; *Surg. H. O., P. B. B. H., October 1, 1930-May 1, 1932*; *Asst. Res. Surg., ibid., May-September, 1932*; Asst. Res. Surg., N. Y. Hosp.; Asst. in Surg., Cornell Med. Sch., 1932-36; Res. Surg., N. Y. Hosp.; Instr. in Surg., Cornell.

PETER BENT BRIGHAM HOSPITAL

BLAIN, DANIEL

B.A., Wash. and Lee Univ., 1921; M.D., Vanderbilt, 1929; *Med. H. O., P. B. B. H., November 1, 1929-March 1, 1931*; Fellow in Psychiatry, Austen Riggs Foundation, Stockbridge, Mass., 1931-32; in practice, New York City.

BLAKE, FRANCIS GILMAN

A.B., Dart., 1908; M.D., Harv., 1913; *Med. H. O., P. B. B. H., July 1, 1913-November 1, 1914*; *Asst. Res. Phys., ibid., November 1, 1914-September 1, 1915*; *Res. Phys., ibid., September 1, 1915-October 1, 1916*; Moseley Traveling Fellow (Harv.), 1916-17; Asst., Rockefeller Inst. Hosp., 1916-17; Asst. Prof. of Med., Univ. of Minn., 1917-19; Visit. Phys., Elliott Mem. Hosp., Univ. of Minn., 1917-19, (leave of absence February 11, 1918-July 1, 1919); Assoc. in Med., Rockefeller Inst. Hosp., 1919-20; Assoc. Mem. in Med., Rockefeller Inst. Hosp., 1920-21; Mem., Board Scientific Directors, Rockefeller Inst. for Med. Research; Chairman, Div. Med. Sci., Nat. Research Council, 1933-36; Sterling Prof. of Med., Yale Univ., School of Med.; Phys.-in-Chief, New Haven Hosp., New Haven, Conn.

BLOSSER, HAROLD L.

A.B., Grinnell Coll., Grinnell, Iowa; M.D., Harv., 1925; *Pathol. H. O., P. B. B. H., January 1, 1925-January 1, 1926*; Grad. Asst. Roent., M. G. H., 1926; Surg. H. O., Lakeside Hosp., 1926-27; Asst. Res. Surg., *ibid.*, 1927-29; in practice, Portland, Ore.

BLUMGART, HERRMAN L.

B.S., Harv., 1917; M.D., *ibid.*, 1921; *Med. H. O., P. B. B. H., July 1, 1921-November 1, 1922*; Moseley Traveling Fellow, Harv., 1923; Asst., Thorndike Mem. Lab., B. C. H., 1924-28; Asst. in Med., Harv., 1924-27; Faculty Instr., *ibid.*, 1927-28; Asst. Prof. of Med., *ibid.*, 1928-29; Assoc. Prof. of Med., *ibid.*; Visit. Phys., Beth Israel Hosp.; Director, Med. Research, *ibid.*

BOEHM, JULIUS BENJAMIN

B.S., St. Louis Univ., 1910; M.D., Johns Hopkins, 1914; *Surg. H. O., P. B. B. H., November 1, 1914-November 1, 1915*; Res. Surg., Greenpoint Hosp., Brooklyn, N. Y., 1915-18; Surg. Serv., Walter Reed Hosp.; Chief Surg., Trinity Hosp., Brooklyn, N. Y.

BOGGS, ARTHUR GORDON

A.B., Dart., 1915; M.D., Harv., 1919; *Surg. H. O., P. B. B. H., March 15, 1919-July 1, 1920*; New Haven Hosp., New Haven, Conn.; Med. Missionary, Clough Mem. Hosp., Ongole, South India.

BOOTH, GEORGE

B.S., Allegheny Coll., 1922; M.D., Harv., 1926; *Med. H. O., P. B. B. H., March 1, 1927-July 1, 1928*; in practice, Pittsburgh, Pa.

BOOTHBY, WALTER MEREDITH

A.B., Harv., 1902; M.D., *ibid.*, 1906; A.M., *ibid.*, 1907; European clinics for eight months, 1907-08; Surg. H. O., B. C. H., 1908-09;

REGISTER OF FORMER MEMBERS OF THE STAFF

Asst. in Anat., Harv., 1910-14; Asst. in Anesthesia, Harv. Grad. School of Med., 1912-13; Sheldon Traveling Fellow, Harv. (Oxford Univ., largely); Anesthetist, B. C. H., 1912; *Supervisor of Anesthesia*, P. B. B. H., December 11, 1913-November 14, 1916; Lect. on Anesthesia and Instr. in Anat., Harv., 1914-16; Capt. and Major., M. C., U. S. Army, 1917-19; Prof. of Exp. Metabolism, Grad. Sch. of Med., Univ. of Minn., Head of Section on Metabolic Invest. and Assoc. in Div. of Bio-Chemistry, Mayo Clin., Rochester, Minn.

BOWEN, JOSEPH ANDREW

M.D., Univ. of Cincinnati, 1925; Interne, Cinn. Gen. Hosp., 1925-26; Fellow in Surg., Cleveland Clin., 1926-28; *Asst. Res. Surg.*, P. B. B. H., July 15, 1928-July 15, 1929; in practice, Louisville, Ky.

BOWIE, MORRIS A.

A.B., Univ. of Col., 1925; M.D., Harv., 1929; *Med. H. O.*, P. B. B. H., July 1, 1929-November 1, 1930; Instr. in Med., Univ. of Pa.; in practice, Rosemont, Pa.

BOYD, DOUGLAS

Univ. of Ga.; M.D., Harv., 1922; H. O., Robert Brigham Hosp., Boston, 1921-22; Asst. Res. Phys., Boston Sanatorium, 1922-23; *Surg. H. O.*, P. B. B. H., March 1, 1923-July 1, 1924; *Act. Asst. Res. Surg.*, *ibid.*, July 1-August 1, 1924; Asst. in Med., Rockefeller Inst., 1924-25; Asst. Res. Phys., Hosp. of Rockefeller Inst.; Asst. Res. Surg., Lakeside Hosp., 1925-26; Res. Orthopedic Surg., Rainbow Hosp., Cleveland, Ohio, 1926; Instr. in Med., Northwestern Univ. Med. Sch.; in practice, Highland Park and Chicago, Ill.

BOYD, WALTER WILLARD

E.E., Univ. of Va., 1920; M.S., M. I. T., 1922; M.D., Harv., 1928; *Surg. H. O.*, P. B. B. H., October 1, 1928-February 1, 1930; House Phys., B. L. I., 1930-31; *Asst. Res. Surg.*, P. B. B. H., April 1, 1931-January 15, 1932; Asst. Res., Boston Lying-In Hosp., July 1, 1932-December 1, 1933; Res., *ibid.*, December 1, 1933-July 1, 1934; in practice, Boston, 1933-35; Asst. Obstetrician, M. G. H., 1933-35; Clin. Instr. Obstet. and Gyn., George Washington Hosp., Washington, D. C.; in practice, Washington, D. C.

BOYDEN, HORACE MAYO

A.B., Univ. of Oregon, 1927; M.D., Univ. of Mich., 1930; *Med. H. O.*, P. B. B. H., November 1, 1930-February 3, 1931. Died February 3, 1931.

BOYES, JOSEPH H.

A.B., Stanford, 1926; M.D., *ibid.*, 1930; H. O., Pathol., M. G. H., July, 1929-June, 1930; *Surg. H. O.*, P. B. B. H., July 1, 1930-November 1, 1931; Res. Surg., Stanford Univ. Med. Sch. Hosps., San Francisco, 1931-32; Asst. in Surg., Stanford Univ. Sch. of Med. & Clin. Instr. in Surg.; in practice, San Francisco.

PETER BENT BRIGHAM HOSPITAL

BRADLEY, JOHN I.

A.B., Georgetown Univ., 1920; M.D., Harv., 1925; Pathol. Interne. B. C. H., 1925; *Surg. H. O., P. B. B. H., November 1, 1925-March 1, 1927*; Asst. Pathol., M. G. H., 1927-35.

BRIGHAM, FERDINAND

A.B., Tufts Coll., 1912; D.M.D., H.D.S., 1915; *Dental Surg., P. B. B. H., March 13, 1919-January 20, 1920*; Capt., R. A. M. C., 1915-19; Degree, Dental Surg., Fac. of Med., Paris; in practice, Paris, France.

BRIGHAM, ROBERT B.

A.B., Williams, 1924; M.D., Harv., 1928; *Surg. H. O., P. B. B. H., October 1, 1928-June 1, 1929 (resigned)*; H. O., Good Samaritan Hosp., Portland, Ore., July, 1929-July, 1930; in practice, Northampton, Mass.

BRIGHT, ERNEST F.

A.B., Hiram Coll., Ohio, 1925; M.D., Harv., 1929; H. O., Broadway Maternity Hosp., Cambridge, Mass., 1926-27; Pathol. H. O., Palmer Mem. Hosp., 1929-30; Interne in Surg., Lakeside Hosp., 1930-31; Crile Teach. Fellow in Surg., Western Reserve Univ., 1931-32; Asst. Res. Surg., Lakeside Hosp., July-August, 1932; *Asst. Res. Surg., P. B. B. H., September 1, 1932-November 1, 1933*; Chief Surg. Res., Lakeside Hosp., 1934-35; Instr. in Surg., Western Reserve Univ.; Exec. Asst. to Director of Surg., Lakeside Hosp.; in practice, Cleveland, Ohio.

BRILL, SELLING

BELL, DONALD C.

M.D., Columbia, 1914; *P. B. B. H., Med., 1923-24*; Asst. Clin. Prof. Cleveland, Ohio.

BREMER, FREDERIC

M.D., Univ. of Brussels; C.R.B., Foundation Fellow, 1920; *P. B. B. H., Surg., October 1920-April 1921*.

BRILL, I. C.

M.D., Columbia, 1914; *P. B. B. H., Med., 1923-24*; Asst. Clin. Prof. Med., Univ. of Oregon; Portland, Ore.

BROWN, MORTON G.

A.B., Harv., 1927; M.D., *ibid.*, 1931; *P. B. B. H., Med., 1933-34*; Asst. in Med., Harv.; Asst. Phys., Beth Israel Hosp.; Boston, Mass.

BRUGSCH, HEINRICH

M.D., Berlin, 1927; Fellow of Akademische and Austausch-dients; *P. B. B. H., Med., 1929-30*; Boston Disp., Boston, Mass.

BRYAN, A. HUGHES

M.D., Harv., 1931; Research Fellow in Med., Harv., 1933-34; *P. B. B. H., Med., 1933-34*.

COURVILLE, CYRIL B.

M.D., College Med. Evangelists, 1925; Interne, Los Angeles Gen. Hosp.; *P. B. B. H., Surg., August 1927-January 1928*; Loma Linda, Calif.

PETER BENT BRIGHAM HOSPITAL

DECAMPS, NESTOR

M.D., Brussels, 1925; Fellow of Commission for Relief of Belgium Education Foundation; *P. B. B. H., Med.*, 1926-27.

DECOPPET, GASTON

M.D., Univ. of Berne, 1924; Chef de clinique, Prof. de Quervain's service, Berne; Rockefeller Foundation Fellow, 1929-30; *P. B. B. H., Surg.*, September 1929-August 1930; Inselspital, Berne, Switzerland.

DEERY, EDWIN M.

M.D., Harv., 1926; *P. B. B. H., Surg.*, November 1928-September 1929; New York City.

FANG, I-CHI

M.D., Peiping Union Medical College, 1922; *P. B. B. H., Administration*, 1931.

FINCHER, JR., EDGAR F.

M.D., Emory, 1925; Interne, Piedmont Hosp., 1925-26; *P. B. B. H., Surg.*, June-September 1926; Atlanta, Ga.

FRIED, BORIS M.

M.D., Imperial Nicholas Univ., Saratov, 1914; *P. B. B. H., Surg.*

GAIRDNER, ALAN C.

B.Ch., Oxon, 1926; F.R.C.S., Eng., 1928; *P. B. B. H., Surg.*, November 1928-January 1929; London Hosp., London, England.

GRANT, FRANCIS C.

M.D., Univ. of Penn., 1919; *P. B. B. H., Surg.*, October 1925-May 1926; Philadelphia, Pa.

GROFF, RICHARD ARMAND

M.D., Univ. of Pennsylvania, 1928; *P. B. B. H., Surg.*, 1931.

HALPENNY, ATTRACTA

L.R.C.S., Royal Coll. Phys. and Surg., Dublin; Purefoy Mem. Scholar, Coll. of Surgs., Dublin; *P. B. B. H., Surg.*, September-December 1929; Dublin, Ireland.

HOLLAND, CLYDE

M.S., C.M., Dalhousie, 1923; Fellow of Rockefeller Foundation; *P. B. B. H., Med.*, 1929-30; Halifax, N. S.

ISAACS, RAPHAEL

M.D., Cincinnati, 1918; *P. B. B. H., Med.*, 1922-23; Asst. Prof. of Medicine, Univ. of Michigan.

KAPLAN, ABRAHAM

M.D., Harvard, 1927; *P. B. B. H., Surg.*, 1931.

KINDALL, LLOYD E.

M.D., Univ. of Colorado, 1913; *P. B. B. H., Urol.*, January-June 1926; Oakland, Calif.

FORMER VOLUNTARY GRADUATE ASSISTANTS

KOTTKE, ELMER E.

M.D., Northwestern Univ., Chicago; *P. B. B. H., Med., October 1930-May 1931*; Des Moines, Iowa.

KREDEL, FREDERICK E.

M.D., Johns Hopkins, 1929; *P. B. B. H., Surg., June 15-September 15, 1927*; and *June 15-September 15, 1928*.

KUBIE, LAWRENCE S.

M.D., Johns Hopkins, 1921; *P. B. B. H., Surg., September-October 1927*; New York City.

LAWS, CLARENCE L.

M.D., Emory, 1930; Assistant Resident Physician, Vanderbilt University Hosp., Nashville, Tenn., 1931-32; *P. B. B. H., Med., August 1932-May 1933*.

LEE, FERDINAND C.

M.D., Johns Hopkins, 1919; Surg. Interne, September 1919-September 1920; *P. B. B. H., Surg., June-September 1923*; Baltimore, Md.

LEHMAN, WALTER

Prof. Surg., Chirurgische Univ. Clin., Göttingen, Germany; *P. B. B. H., Surg., January-April 1926*.

LIST, CARL FELIX

M.D., Berlin, Germany, 1926; *P. B. B. H., Surg., 1931*; Berlin, Germany.

LYNCH, RALPH

M.D., Pennsylvania, 1923; *P. B. B. H., Med., 1927-28*; Pittsburgh, Pa.

MATTON, MARCEL

M.D., Ghent, 1929; Fellow of Commission for Relief of Belgium Education Foundation; *P. B. B. H., Med., 1924-25*; Ghent, Brussels.

MEACHEN, JOHN W.

M.D., Harv., 1922; *P. B. B. H., Roentgenology, 1924*; Roentgenologist, Huntington Memorial and Palmer Memorial Hospitals.

MENTZER, JOHN H.

M.D., Univ. of Pa., 1930; *P. B. B. H., Med., 1932-33*; Philadelphia, Pa.

MORELLE, JEAN

M.D., Louvain Univ., 1924; Asst. in Surg., Louvain; C.R.B. Educational Foundation Fellowship, 1925-26; *P. B. B. H., Surg., October 1925-June 1926*; Louvain, Belgium.

MUANGAM, P.

P. B. B. H., Roentgenology, 1927. Sent by Government of Siam for study.

ODY, FRANCOIS

M.D., Univ. of Geneva, 1922; Chef du second service de chirurgie (au concours) de l'Hopital Cantonal de Geneve; Rockefeller Foundation Fellow, 1930-31; *P. B. B. H., Surg., 1930-31*.
